Number of buildings: Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.	13
Number of inmate housing units: Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.	7 housings units

Audit Findings

Audit Narrative (including Audit Methodology)

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

On July 28, 2020, the Pre-Audit Notification was sent to Dillwyn Correctional Center (DWCC) to be posted throughout the facility. On July 31, 2020, an email was provided with pictures of the PREA notices posted on bulletin boards in the facility. Instructions were given to post the notice throughout the center where offenders, staff and visitors could view it. The notification will remain posted at least six weeks after the onsite audit. The onsite audit took September 22, 2020 through September 23, 2020. On August 23, 2020, I received electronics files from DWCC which included the Pre-Audit Questionnaire, operating procedures, organizational charts, and other PREA related information. I received no offender requests to be interviewed. The PREA Audit Schedule was sent to the prison on September 17, 2020. Staff rosters and offender bed logs were provided and selection of offenders and staff was made before the onsite visit.

The audit team, Phyllis Baskerville and I arrived at Dillwyn Correctional Center on September 22, 2020 at 8:15 AM. We met with Warden Ratliffe-Walker, Joseph Allotey, Regional PREA Analyst, and key center staff in a conference room in the administration building. Warden Ratliffe-Walker introduced her staff to the audit team. We introduced ourselves and shared the audit schedule, expectations and purpose for the audit. After the conclusion of the entry meeting, I began a tour of the Center along with Warden Ratliffe-Walker and other key members of the staff. Auditor Phyllis Baskerville began interviewing random offenders and random security staff. There were 778 inmates assigned to the facility on the first day of the audit.

During the tour, I saw the PREA Notification letter posted throughout the prison. PREA posters were posted in English and Spanish in all the housing areas. However, PREA posters were not in the kitchen area and not very visible in the inmate dining hall. The staff posted notices in these areas the same day it was pointed out to them. PREA hot line numbers and instructions were posted on the walls in the dayrooms near the telephones. I tested a number of inmate telephones to access the PREA hot line. I made one test call on the PREA hot line. I received notification the next day that my test call had been received.

I spoke with offenders in all housing, program and work areas. The inmates communicated freely, and demonstrated knowledge of PREA requirements, specifically how to make notifications if needed. All areas were PREA compliant. Inmates had privacy when showering, dressing and using the toilets. There are cameras throughout the prison. Control room officers are monitoring cameras throughout the course of a work day. Senior security staff have access to security cameras and video footage throughout the facility.

We spoke with many members of the staff throughout the tour of the prison. Staff were aware that the PREA audit team would be reviewing the prison practices and operations as related to PREA. They readily answered the auditor's questions and expressed knowledge of PREA policies and procedures. Announcements were made and logged prior to female staff entering the male housing areas. Supervisors regularly document when they make unannounced rounds and log them in the PREA log books.

Upon completion of the tour, we went to our assigned work areas. We began interviewing staff, offenders, and reviewing audit files and documentation.

The audit team interviewed 26 random inmates and ten targeted inmates. During the interviews, inmates demonstrated knowledge of PREA rules and reporting procedures. The ten targeted inmates included 1 inmate with a physical disability, 2 Inmates who are LEP, 5 Inmates who identify as Lesbian, Gay or

Bisexual, 1 Inmate who reported sexual abuse, and 1 Inmate who reported sexual victimization during risk screening. The inmates reported no problems with PREA. All inmates demonstrated a solid understanding of the PREA program and their rights. Additionally, most inmates indicated that they felt safe from sexual abuse or sexual harassment at DWCC. Supporting documentation of a signed Preventing Sexual Abuse and Assault Training Acknowledgement form was supplied for all inmates interviewed. We used Propio over the telephone translation services to interview the Limited English inmates. A random selection of inmate files was reviewed for intake screening within 72 hours of admission, identification of potential victim, potential aggressor and LGBTI, Reassessment within 30 days, and follow-up meeting with Medical/Mental Health staff. Inmate files reviewed were in compliance.

Twelve random staff were interviewed, and 26 specialized staff were interviewed. Random staff interviewed represented all housing units, plus day and night shifts. The specialized staff included the Director, Agency Contract Administrator, Investigative staff, Warden, Intake staff, Higher-Level Facility staff, PREA Compliance Manager, Designated staff member charged with monitoring retaliation, Volunteers, Contractor, Medical and Mental Health staff, Security and Non-Security Staff who have acted as first responders, Staff who supervise inmates in segregation housing, Staff who perform screening for risk of victimization and abusiveness, Incident Review Team, and Human Resources Staff. All staff had received training within the past 12 months. Staff were aware of PREA requirements and their duty to act immediately upon any PREA complaint or violation. The auditor reviewed a sampling of employee personal and training records. Auditor looked for performance of criminal record background checks, consideration of prior incidents of sexual harassment when determining whether to hire or to promote anyone, or to enlist the services of any contractor who may have contact with inmates, and whether the center imposed upon employees a continuing affirmative duty to disclose any previous misconduct. The files reviewed were in compliance of standard [115.17]. In order to determine compliance with each standard, the auditor relied upon information in the DOPs, written memoranda, posts log entries, interviews of offenders and staff, and observations during the tour of the facility.

After concluding the onsite portion of the audit, the audit team held an exit meeting with Warden Ratliffe-Walker, Regional PREA Coordinator, PREA Compliance Manager, and other key members of the executive team. We expressed our appreciation for the hospitality, cooperation, and timely assistance with inmate and staff interviews as well as unrestricted access to documents and files that were needed. The center was well run with experienced staff and good security practices.

We indicated that the onsite portion of the audit went well. However; the team must complete the post-audit section of the audit in order to determine the final outcome of the audit. The audit report will be completed within 45 days of the onsite audit.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Dillwyn Correctional Center (DWCC) is located in Buckingham County, VA. The facility opened in 1993, and serves as a low security facility for male offenders within the VADOC. The facility houses general population offenders and also serves as a reception center for the agency. The facility count was 778 on the first day of the audit. The facility contains six (6) housing units and a Restricted Housing Unit. Each general population unit is comprised of 2 open bay dormitories. Each housing unit has a Control Center with video monitoring capabilities. There is a total of 12 open bay dorms with bathrooms, showers, and dressing areas at the front of each housing unit. The bathrooms have shower curtains and other visual barriers to prevent unlimited cross genders viewing. Each open bay dorm is characterized as a large open space with cameras placed at the front and back of the dormitories. There are no blind spots in the dormitories. The kitchen area is equipped with numerous cameras covering all areas of food service. The facility has educational, recreational, and vocational programming areas which use a combination of video monitoring and staff supervision to ensure sexual safety.

The last staffing analysis revealed an authorized security staff complement of 295. Security staff post requiring two certified officers are routinely staffed with one officer for posts such as Master Control, Kitchen, Housing Unit Floors, Special Housing Floor, etc. Cameras were requested for several work areas which currently have no video coverage. No correlation of sexual abuse allegations were noted related to these requests.

During the audit period, the facility presented a professional correctional atmosphere. The auditor perceived the climate of the facility to be good with sufficient and appropriate communication avenues among staff and inmates.

Summary of Audit Findings

The summary should include the number and list of standards exceeded, number of standards met, and number and list of standards not met.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 401.2 section on Staffing Plan states each facility shall develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect offenders against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:

- a. Generally accepted detention and correctional practices
- b. Any judicial findings of inadequacy
- c. Any findings of inadequacy from Federal investigative agencies
- d. Any findings of inadequacy from internal or external oversight bodies
- e. All components of the facility's physical plant (including "blind-spots" or areas where staff or offenders may be isolated)
- f. The composition of the offender population
- g. The number and placement of supervisory staff
- h. Institution programs occurring on a particular shift
- i. Any applicable State or local laws, regulations, or standards
- j. The prevalence of substantiated and unsubstantiated incidents of sexual abuse
- k. Any other relevant factors

In circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan. During the pre-audit, the auditor was advised the facility has deviated from the staffing plan in the past; however, those positions deemed to be key posts, were never closed. By January 31 of each year and more frequently if needed, each facility shall review any existing staffing plan and post audits.

- a. This review shall assess, determine, and document whether adjustments are needed to:

- The facility's established staffing plan
- The facility's deployment of video monitoring systems and other monitoring technologies
- The resources the facility has available to commit to ensure adherence to the staffing plan
- If the review indicates that the facility is not staffing to plan or staffing to post audits, the facility must provide a comprehensive written explanation as to why they are not able to staff to post audits and possible solutions to increase facility staffing levels
- These comprehensive written explanations shall be provided to the Regional Operations Chief for review and forwarded to the Regional PREA Analyst

Since August 20, 2012, the average daily number of offenders was 903.

Since August 20, 2012, the average daily number of offenders on which the staffing plan was predicated was 905.

Operating Procedure 401.3 states ADO's conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Unannounced rounds should be made intermittently during the month.

Operating Procedure 401.1 states Post Orders shall require that Lieutenants and above conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment.

- a. Supervisors are prohibited from notifying staff of unannounced rounds. Unannounced intermediate and upper-level supervisor rounds occur on all three shifts and are completely random. They are logged in the log books located in the control room of each housing unit.

During the pre-audit, the auditor reviewed, a sample of unannounced rounds by supervisors. The documentation of unannounced rounds showed they have occurred on all three shifts. Staff interviews indicate the facility has a staffing plan they review annually in order to determine the minimum number of required staff. Video monitoring is a part of this plan. The Warden, Assistant Warden, and Major all have a copy of the staffing plan. All required staffing plan guidelines under 115.13 are a part of the facility's staffing plan. The Warden checks for compliance with the staffing plan by reviewing the daily duty roster and observing these areas to make sure staff are assigned there. The Warden can also review the staffing report which is a part of the supervisor's daily shift briefing report. In the event a staff member calls in, another staff member would be drafted from the overtime list to fill this position. The staffing plan is developed at the facility level. Departmental security supervisors audit the facility and review the facility's staffing plan. Recommendations are forwarded to the PREA Analyst and PREA Coordinator for their review. Staffing plans are reviewed annually, or whenever the need is identified. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operation Procedure 445.1 prohibits cross-gender strip or cross-gender visual body cavity searches absent exigent circumstances. Policy requires all cross-gender strip- searches and cross-gender visual body cavity searches be documented.

In the past 12 months, there have been no cross-gender strip or cross-gender body cavity searches of offenders.

Female offenders are not housed at DWCC.

Operating Procedure 401.2 states officers of the opposite gender should be allowed to supervise offender housing areas, with appropriate physical modifications made to toilet and shower areas to provide a reasonable degree of offender privacy. Facility procedures and practices shall enable offenders to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Staff of the opposite gender shall announce their presence when entering an offender housing unit. These announcements shall be documented in the log book.

During the audit, the auditor observed female staff announcing their presence before entering the pod. Operating Procedure 350.2 states all new Corrections Officers (and any other offender care workers at Detention/Diversion Centers) receive at least 120 hours of training (in addition to orientation) during their first year of employment. This training includes cross gender frisk searches and searches of transgender and intersex offenders in a professional and respectful manner and in the least intrusive manner possible consistent with security needs.

A review of the pre-audit questionnaire indicates 100% of all security staff have received training on conducting cross-gender pat-down searches and searches of transgender and intersex offenders in a professional and respectful manner, consistent with security needs. Staff interviews indicate female security staff announce their presence at the beginning of their shift. In addition, an announcement is made anytime non-security female staff enter the housing unit. During the audit, the auditor observed female staff announcing their presence before entering the housing unit.

Staff interviews indicated they were trained on how to conduct cross-gender pat- down searches and searches of transgender/intersex offenders. Offenders are never viewed by female staff while in a state of undress. Based upon observations, interviews, and review of operating procedures, this standard is in compliance.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. DWCC conducts administrative investigations of sexual abuse and harassment allegations. If a sexual abuse and harassment allegation is referred for criminal investigation, it is handled by the VADOC Special Investigations Unit (SIU). The government policies to ensure proper evidence protocol, forensic services if needed, and victim advocacy services are: Operating Procedure 030.4 (Special Investigative Unit), Operating Procedure 038.1 (Reporting Serious or Unusual Incidents), and Operating Procedure 720.7 (Emergency Medical Equipment and Care), and Operating Procedure 730.2 (Mental Health Services: Screening, Assessment and Classification). The agency and facility follow the uniform evidence protocol, adapted from and or based on the most recent edition of the U.S. Department of Justice Office on Violence against Women publication. DWCC and the VADOC also use various sexual assault checklists depending on the persons or status of persons allegedly involved in the allegation (Offender/Offender or Staff/Offender). Correctional and Health Services staff interviewed was knowledgeable of the procedures required to secure and obtain usable evidence when sexual abuse is alleged. There were no forensic exams required for an alleged sexual assault victim during this audit period. If a forensic exam is needed, DWCC offenders are transported to Medical College of Virginia/Virginia Commonwealth University. Contracted advocacy services are provided by Virginia Sexual and Domestic Violence Action Alliance. The auditor reviewed the current agreement. There are also trained volunteer advocates on call based on a published schedule for 2020. All victims' services are provided at no cost to the offender.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 030.4 states the SIU is responsible for conducting administrative and/or criminal investigations into allegations of sexual abuse or sexual harassment in DOC facilities as outlined in this procedure. The SIU is responsible for conducting investigations on all incidents of sexual abuse and sexual harassment. SIU investigators will receive special training in sexual abuse investigations before conducting PREA investigations.

In addition to the general PREA training provided to all employees, investigators shall receive specialize training in conducting sexual abuse investigations in confinement settings. Specialize training shall include the following:

- Techniques for interviewing sexual abuse victims
- Proper use of Miranda and Garrity warnings
- Sexual abuse evidence collection in confinement settings
- Criteria and evidence required to substantiate a case for administrative action or prosecution referral

During the past 12 months, there have been 5 allegations of sexual abuse and sexual harassment that were received.

During the past 12 months, there has been 1 allegations resulting in an administrative investigation.

During the past 12 months, there have been no (0) allegations referred for criminal investigation.

Operating Procedure 038.3 states an administrative or criminal investigation conducted in accordance with PREA standards shall become completed for all allegations of sexual abuse and sexual harassment. Initial investigation may be conducted by the facility investigator. Unless it is quickly and definitively determined that the allegation is unfounded, allegations of sexual abuse or sexual harassment shall be referred for investigation to the DOC Special Investigations Unit (SIU). The facility shall document all such referrals. The SIU shall conduct investigations into criminal behavior, procedural or administrative violations, or employee misconduct affecting the operations of the DOC.

The Chief of Special Investigations Unit or a designee shall review the nature of the allegations received to determine if an investigation is warranted. Upon notification of an allegation of sexual abuse or misconduct, investigative staff shall follow Operating Procedure 030.4, Special Investigations Unit.

During the pre-audit, the auditor located the policy stating referrals of allegations of sexual abuse or sexual harassment for criminal investigation on the agency website (<https://vadoc.virginia.gov/about/procedures/documents/030/038-3.pdf>). Staff interviews indicate the DOC has a Special Investigation Unit (SIU) with law enforcement authority to investigate crimes in facilities within the DOC.

Institutional Investigators handle administrative investigations at the facility; criminal investigations are referred the Special Investigation Unit for review. When an allegation is received, the warden of the facility, the institutional investigator, and the PREA Analyst are notified. If the allegation is criminal in nature, SIU would also be notified. Staff would ensure the victim is protected and all established protocols are instituted. Any allegation received from another agency is processed the same way. If an allegation is received that happened at another agency, the DOC reports these allegations to the respective authority. Review of Operating Procedures, review of case files, interviews of staff and offenders verify compliance of this standard.

Auditor Overall Compliance Determination

Exceeds Standard (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In accordance with Operating Procedure 730.2, Mental Health Services: Screening, Assessment, and Classification, Operating Procedure 810.1 Offender Reception & Classification, and Operating Procedure 810.2, Transferred Offender Receiving and Orientation, offenders will be screened for potential vulnerability to sexual assault, or tendencies to act out with sexually aggressive behavior at intake, transfer and as needed while incarcerated.

Upon receiving an allegation that an offender was sexually abused while confined at another facility, the head of the facility that received the allegation shall notify the head of facility or appropriate office of the agency where the alleged abuse occurred. Such notification shall be provided as soon as possible, but no later than 72 hours after receiving the allegation.

Operating Procedure 038.3 says the DOC shall use information from the offender risk screening to inform housing, bed, work, education, and program assignments with the goal of keeping separate those offenders at high risk of being sexually victimized from those at high risk of being sexually abusive. The DOC shall make individualized determinations about how to ensure the safety of each offender. Specialized decisions to provide specific individual accommodations to transgender or intersex offenders and offenders diagnosed by Mental Health staff with Gender Dysphoria shall be made by the Gender Dysphoria Committee. In deciding whether to assign a transgender or intersex offender to a facility for male or female offenders, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the offender's health and safety, and whether the placement would present management or security problems.

Staff interviews indicate medical and mental health staff are made aware of any offenders who screen as victims as well as those screened as being abusive. Medical and mental health staff will conduct follow-up evaluations. Housing is determined based on the screenings with the goal of housing these two types of offenders separate from one another. Potential victim's bunk assignments will typically be assigned closer to the control rooms for more direct observation by security staff. Transgender or intersex offenders' views with respect to his or her own safety are given serious consideration in placement and programming assignments. Interviews of offenders did not raise any concerns about inappropriate placement which caused offenders to be fearful of sexual assaults or aggressive sexual behavior.

I find DWCC to be in compliance with standard 115.41 for the above stated reasons.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 830.5 states offenders identified as HRSV shall not be placed in Special Housing without their consent unless an assessment of all available alternatives has been made, and it has been determined by the QMHP, in consultation with the Shift Commander and Regional PREA Analyst, that there is no available alternative means of separation from likely abusers. If the facility cannot conduct an assessment immediately, the Shift Commander may place the offender in Special Housing on General Detention for no more than 24-hours while completing the assessment.

The facility must clearly document the basis for the facility's concern for the offender's safety and the reason why no alternative means of separation can be arranged. Involuntary assignment to Segregation or a Restrictive Housing Unit shall only be made until an alternative means of separation can be arranged. This assignment to Segregation/Restrictive Housing Unit shall not ordinarily exceed a period of 30 days.

The pre-audit questionnaire indicates that the facility has not placed any offenders at risk of sexual victimization in involuntary segregated housing. Staff and offender interviews indicate that they would not place offenders at high risk for sexual victimization or who have alleged sexual abuse in involuntary segregated housing in lieu of other housing areas, unless an assessment has determined there are no available alternative means of separation from potential abusers. If an offender was placed in involuntary segregated housing for this reason, they would only be housed there until alternative means of separation from likely abusers can be arranged. Staff indicated they have never had to use involuntary segregated housing for this reason.

Standard 115.43 is in compliance based upon operating procedures, proper documentation, staff and inmate interviews, and observations during the tour of the facility.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In the past 12 months, there have been no administrative findings of offender-on-offender sexual abuse that have occurred at the facility.

In the past 12 months, there have been no criminal findings of offender-on-offender sexual abuse that have occurred at the facility.

The pre-audit questionnaire indicates this facility offers therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse. Operating Procedure 820.2 states facilities that offer therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for sexually abusive behavior shall determine if offenders who are found guilty of a disciplinary or criminal offense for sexual abuse are required to participate in such interventions as a condition of access to programming or other benefits.

Operating Procedure 038.3 states offenders shall not be charged for reports of sexual abuse made in good faith, based upon a reasonable belief that the alleged conduct occurred. Staff interviews indicate offenders would be subject to disciplinary sanctions following an administrative or criminal finding that the offender engaged in offender-on-offender sexual abuse. Offenders would receive an institutional charge for

misconduct. If the actions were criminal in nature, the offender abuser would be referred for prosecution by SIU.

The offender abuser may face a loss of good time and may also be transferred to a higher-level security prison. Disciplinary sanctions are proportionate to the nature and circumstances of the abuses committed, the offenders' disciplinary histories, and the sanctions imposed for similar offenses by other offenders with similar histories. An offender's mental disability or mental illness is considered when determining sanctions. Medical and mental health staff interviews indicate they provide therapy, counseling, or other intervention in an attempt to address and correct the underlying reasons or motivations for sexual abuse. When these services are provided, staff does not consider an offender's participation as a condition of access to programming or other benefits.
