AUDIT FINDINGS

NARRATIVE: The PREA Audit of the Caroline Correctional Unit (CCU) #2 was conducted from April 2 - 4, 2014. The Designated Auditor was Charles J. Kehoe. Mr. Kehoe was assisted by David K. Haasenritter in the preliminary review of the audit files and in the post-audit analysis. Mr. Haasenritter is also a Certified PREA Auditor.

The auditor wishes to extend his deepest appreciation to Superintendent Rodney W. Younce and his staff for their professionalism, hospitality, and kindness.

The auditor also wishes to compliment the DOC PREA Coordinator, Elizabeth Thornton and Regional PREA Analysts, Lawanda Long and Rose Durbin, for their outstanding work in organizing the electronic files that were provided to the auditors in advance of the audit. This enabled the audit to move forward very efficiently.

The Virginia Department of Corrections PREA Coordinator, one of the Regional PREA Analysts, and the agency contract manager were interviewed by Mr. Haasenritter and Mr. Kehoe on December 16, 2013. Mr. Haasenritter conducted a telephone interview with a representative of the victim advocacy agency that provides emotional support services for offenders in the Department of Corrections who have been sexually abused.

On December 30, 2013, the Designated Auditor, Charles Kehoe, interviewed the Director of Corrections, Mr. Harold Clarke.

An Entrance Meeting was held at 8:20 a.m. on April 2, 2014 with Superintendent Younce, Ms. Lawanda Long, Ms. Rose Durbin, and Lt. April Spencer to review the audit schedule and discuss preliminary information.

Following the Entrance Meeting, the auditor was given a very thorough tour of the Caroline Correctional Unit by the Warden. (A tour of the farm buildings and greenhouses was completed on Friday, April 5, 2014.) Following the tour, the auditor began the interviews and reviews of investigative files and other documents.

Ten offenders were interviewed. Those interviewed were randomly selected, by the auditor, from a list of all the offenders by their housing assignment at the Correctional Unit. In addition, one offender was identified as being in a specialized group and was interviewed.

Ten correctional officers were interviewed who were randomly selected by the auditor from both shifts. Nineteen interviews were conducted to address the 15 specialized staff or specialized areas and included the Superintendent, PREA Manager, Investigator, first responders, Nurse, Chief Psychologist (mental health professional), Counselor (intake and screening), and an Incident Review Team member.

The Human Resource Manager, Psychologist, Investigator, and two Training Officers (not counted in the specialized group) who were interviewed provide services to the CCU, but are located at the Haynesville Correctional Center in Haynesville, Virginia. Superintendent Younce, Ms. Long, Ms. Durbin, and the Auditor drove to Haynesville Correctional Center on April 3, 2014 so the Auditor could conduct those interviews at that facility. It should be noted that since this is a relatively small facility, several of the staff have multiple responsibilities so some individuals were interviewed more than once if their duties covered more than one specialized area.

Three contractors were also interviewed, who were installing cameras at the CUU. In all, the auditor conducted 41 interviews.

The auditor was informed that 59 cameras were being installed throughout the facility. During the tour blind spots were identified and the auditor was informed how these are being addressed with additional cameras and supervision. The auditor returned to the facility on June 9, 2014 to observe the progress that has been made on that project. This will be described in greater detail in the report.

The auditor was impressed by what the correctional officers and other staff know about PREA, the zero tolerance policy, offender rights regarding PREA, first response, and evidence collection. The auditor reviewed several training records and saw the documentation that the employees received the required training. Employees were tested at the completion of the PREA training.

Health care and mental health services that are provided to the offenders at CCU are very professional. During interviews, the offenders acknowledged that mental health professionals are available and that they can also see the counselors at this facility. Although the mental health staff are located at Haynesville, it was clear they are readily available and on-call for any mental health issue that might arise.

When the on-site audit was completed, the auditor conducted an exit meeting. While the auditor could not give the facility a final finding, as there were some issues needing further clarification, the auditor did give an overview of the audit and thanked the Superintendent and his staff for their hard work and commitment to the Prison Rape Elimination Act. During the corrective action period, the facility did correct the one standard it missed. This is described in greater detail in the report.

DESCRIPTION OF FACILITY CHARACTERISTICS:

The Caroline Correctional Unit is located on 142 acres of land in Hanover County, Virginia, 26 miles North of Richmond. This is a Security Level 1 facility (lowest end of the security scale). Offenders convicted of First or Second Degree Murder, sex offenses, or kidnapping or abduction cannot be assigned to this facility. To be eligible to be placed at the CCU, an offender cannot have any escape history and no reports of disruptive behavior for at least 24 months. The CCU operates under the administration of Superintendent Rodney W. Younce and his team of 51 employees. Superintendent Younce came to the facility in January of 2014.

The Offender Profile on January 14, 2014 reported the age ranges are 18 through 64 years. The Race of the offender population was described as 80% African American and 28% white. Two percent are described as having Hispanic Ethnicity. Ninety-three percent of the offenders had no history or current evidence of mental health impairment. Seven percent were said to have minimal impairment. The average daily population is 138 offenders.

There is an administrative building that includes the Superintendent's Office and other administrative offices, located outside the secure perimeter of the facility.

The Facility/Dorm Building is a two-story structure that is located inside the fenced perimeter. On the lower level of the this building is the laundry, clothing and storage areas, showers, toilets, the locker room, personal property storage, a recreation area/dayroom, a computer room and the library. On the upper level of the building is the food preparation area, food storage, offender dining, staff dining, the Watch Office and Control Room, the Major's Office, records area, the Lieutenants' Office, medical, counselors' offices, the dorm landing and Dorm A and Dorm B. Both dorms are "open-bay" and have unobstructed sight lines. The population is about evenly divided between the two dorms. There are also four segregation cells on the upper level.

As previously mentioned, the Superintendent stated that 59 cameras were being installed in the facility. This work is scheduled to be completed before the end of June.

The Pamunkey Farm, which is the part of the Department of Corrections' Agri-Business, includes several green houses and farm and equipment storage buildings.

Offenders can be assigned to several work programs that are both on and off the of the facility grounds. These include the Offender Highway Labor program that is a collaborative program with the Virginia Department of Transportation, the Agri-Business/Farm program, the Offender Kitchen Labor, Dorm Cleaning and Maintenance program, the Offender Librarian and Law Librarian, the Offender Barber Shop Services, and the Offender Recreation Program.

Educational programs include the GED program, computer training, Road-to-Success, Ready to Work, a Book Program and various religious programs.

CCU also offers offenders the opportunity to earn certificates in specific areas that helps to prepare them for reentry. The certificate programs include Waste Water Treatment, SERV SAFE, Forklift, Aerial Lift, Chainsaw, Ridge Hood Cleaning, Pesticide Technician, and a 10-Hour OSHA Certification.

Throughout the day offenders are moving in and out of the facility to these various assignments. The auditor was impressed with how organized and efficient these movements occur. The supervision of offenders is always the top priority.

SUMMARY OF AUDIT FINDINGS:

Number of standards exceeded:	1
Number of standards met:	40
Number of standards not met:	0
Non-applicable:	2

§115.11 - Zero tolerance of sexual abuse and sexual harassment; PREA coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- XX Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Virginia Department of Corrections has a written policy mandating zero tolerance towards all forms of sexual abuse and sexual harassment. Operating Procedure 038.3 outlines the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment, other agency policies such as Operating Procedure 057.1 Personnel Records, supplement the main PREA policy. Agency policies and procedures were well organized and have been continually revised over the last few years as Virginia Department of Corrections has developed and implemented PREA guidance and procedures.

Ms. Elizabeth Thornton is the PREA Coordinator. She supervises three regional PREA Analysts; Ms. Lawanda Long is the regional PREA Analyst for the Caroline Correctional Unit #2 and also serves as the PREA audit coordinator. Ms. Rose Durbin and Mr. Joseph Parks are the other two regional PREA Analysts. All three regional PREA analysts are active in managing the Virginia Department of Corrections PREA program. They conduct training and meetings to keep facility PREA compliance managers up to date on any changes and best practices. Ms. Long, Ms. Durbin and Mr. Parks are very knowledgeable about the PREA Standards and process and are actively involved in the full implementation of PREA. Ms. Long is also a Certified PREA Auditor. Ms. Long claimed to have enough time to perform her PREA duties and is very active at the facilities.

Lt. April Spencer is the CCU PREA Compliance Manager. Lt. Spencer also serves as the Administrative Lieutenant, the Hearing Officer, the Accreditation Manager, the Assistant Watch Commander, and the person who monitors retaliation. Lt. Spencer said there is ample time to do her PREA duties because the facility does not have a lot of PREA issues.

§115.12 - Contracting with other entities for the confinement of inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- XX Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Virginia Department of Corrections has one contracted facility. The Lawrenceville Correctional Center operated by the GEO Group Inc. In March 2013 its contract was amended to include entity's obligation to adapt and comply with PREA standards and the Virginia Department of Corrections responsibility to monitor GEO's compliance with PREA and any standards promulgated in furtherance of PREA. The Virginia Department of Corrections Operating Procedure 038.3 established the requirements in policy. As per conversation with

Ms. Durbin and Ms. Long, the monitoring process will be a mock PREA audit each year the contracted facility does not undergo an official PREA audit.

§115.13 – Supervision and Monitoring

Exceeds Standard (substantially exceeds requirement of standard)

XX Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

CCU has developed a staffing plan and makes its best efforts to comply with the plan. The staffing plan is reviewed annually by the facility, region, and PREA Coordinator. The facility documents all deviations to the plan.

Unannounced rounds are documented in logs, and are done randomly by the Lieutenants, the Major, and the Superintendent. The agency has a policy that prohibits staff from alerting other staff members that supervisory staff rounds are occurring.

The facility is in the process of adding 59 video cameras to the CCU building. This will enhance the security of both levels in the building. This improvement should be completed before the end of June. Security audits are conducted at every DOC facility annually which also helps to identify any monitoring or supervision issues.

On June 9, 2014, the auditor returned to the Caroline Correctional Unit to see the progress that had been made on the installation of the new cameras. Major Moyers took the auditor through the entire facility and showed the auditor where all the new cameras were being located. Monitors will be located in the Watch Commander's Room, the Warden's office, and the Major's office. Cameras are now located at the entrance to the building, in the food preparation and storage areas, in the offender dining area, in the strip search area associated with the dining area, and in the "Hill Control Area." There are five (5) cameras in each dorm area, and one for each of the isolation rooms. Five (5) cameras are located in the lower day room area. There are cameras located in the library and computer room. The offenders' locker room has two (2) cameras. There are also cameras in the commissary and the property room, and two (2) cameras in the laundry rooms. There is also a camera in the counselors' office area. While the cameras were not yet operational at the time of this tour, the installation is on schedule and expected to be completed by the end of June, if not sooner, at which time the cameras will be operational.

Interviews with offenders and staff confirmed that female staff do not observe offenders naked, in the shower or when using toilet facilities.

Staff and offenders interviewed confirmed female staff are announced. The auditor observed female staff announce their presence when they entered the housing units. When female administrators make unannounced supervisory checks, they announce their presence when they enter the dorm area per the DOC policy and procedures that were amended on March 20, 2014 for opposite gender supervisors conducting unannounced rounds.

§115.16 – Inmates with Disabilities and Inmates who are Limited English Proficient

Exceeds Standard (substantially exceeds requirement of standard)

XX Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

CCU takes some steps to ensure inmates with disabilities and inmates with limited English proficiency have an opportunity to participate in and benefit from the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. While the PREA brochure is in English and Spanish, the Inmate Orientation Manual was only printed in English, at the time of the audit.

Hearing impaired inmates go to Powhatan Correctional Center and Fluvanna Correctional Center. The Agency contracts for sign language and video remote interpreting services. Through the medical contract the agency also can access other language interpretations. The Auditor was told the DOC contracts with OPTIMAL for phone interpreters. Both offenders and staff stated offenders are not used as interpreters, especially if it is an issue with sexual abuse and sexual harassment.

During the corrective action period, the Warden and the Regional PREA Analyst had the Inmate Orientation Manual printed in Spanish. On May 16, the Warden sent the Spanish version to the Auditor. The facility now meets the standard.

Applicants and employees have a continuing affirmative duty to disclose any sexual abuse in prison or other institution; convictions, civilly or administratively adjudicated, for engaging in sexual activity in the community by force or coercion or when demonstrated the victim did not consent. Reviewed documents demonstrated compliance. Virginia DOC recently changed policy 057.1 to allow information on substantiated allegations of sexual abuse or sexual harassment involving a former employee to be furnished to any institutional employer for whom the former employee has applied to work.

The Special Investigations Unit is assigned on criminal cases and advises the facility investigator on administrative investigations. All investigations are internal to DOC. The Auditor reviewed 1 investigation that had been conducted and was determined to be unfounded. The Auditor also interviewed the offender who made the claim. The incident comes from a search the offender felt was inappropriate. The offender acknowledged that he was told of the findings and that he has been consulted regarding any retaliation, although it was not required.

§115.31 – Employee Training

- Exceeds Standard (substantially exceeds requirement of standard)
- XX Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Virginia DOC provides all employees a three hour class which includes a video. There is a Post-Test following the training. The Auditor reviewed six training records at CCU and found signed acknowledgement of training and understanding of material covered forms (the acknowledgement form lists all the required areas of the standard), attendance sheets, training agenda, and the actual test the employee took. Review of the lesson plan demonstrates all the required areas are covered. All staff have been trained. During intake, offenders are provided information through a PREA pamphlet and Offender Orientation Handbook that explains the agencies zero tolerance policy regarding sexual abuse and sexual harassment and how to report such incidents. During facility orientation offenders receive additional training which consists of a video and additional information which expands on the previous information provided in the pamphlet and handbook. The inmates sign an acknowledgement of having received the training. Posters and offender handbooks are provided to inmates or posted in the dorms in formats accessible to all inmates.

During the interviews inmates acknowledged the information being provided upon arrival and orientation. All offenders knew the agency zero tolerance policy and how to access assistance if they are abused or harassed. Some offenders claim to be unaware that victim advocates are available for emotional support services related to sexual abuse. This information is available in the DOC brochure, but not in the handbook. As previously mentioned, the Orientation Manual is now available in Spanish. All offenders know that by calling #55 they can make a sex abuse or sexual harassment referral. The auditor recommends annual or refresher classes for the offender population as done for staff.

The screening is completed within 72 hours of arrival by policy and check of records. Screening information is provided to mental health staff and records are maintained by the counselors.

The auditor was provided screening documentation that confirmed inmates were being asked their own perception of vulnerability.

§115.42 – Use of Screening Information

- Exceeds Standard (substantially exceeds requirement of standard)
- XX Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Housing and program assignments are done on a case by case basis.

The Department recently amended its policy regarding the Gender Identity Disorder Committee and the local treatment teams which meets the standard.

At the time of the audit there was no transgender or intersex inmate in the CCU.

Per the MOU, if the claim is not immediately reported, it will be forwarded to DOC as part of the quarterly report. Per a conversation with the Alliance; another option includes outside reporting.
