DEFINITIONS

Health Authority - The individual who functions as the administrator of the facility medical department.

Licensed Independent Practitioners (LIP) - Persons who are licensed by the Virginia Board of Health Professions, who can be autonomous in their practice (not DOC employees), but are supervised by DOC staff. Duties are determined by each facility and written into contracts.

Mental Health Clinician - An individual with at least a Master's degree in psychology, social work, or relevant human services field with knowledge, training, and skills in the diagnosis and treatment of mental disorders, which may include a Psychiatric Provider, Social Worker, or Registered Nurse.

Psychiatric Provider - Psychiatrists or Advanced Practice Providers who are licensed by the Virginia Board of Health Professions, and who are authorized to make decisions regarding medication management for mental health issues.

PURPOSE

This operating procedure provides guidelines for the provision of psychiatric services to inmates and Community Corrections Alternative Program (CCAP) probationers/parolees housed in Department of Corrections (DOC) facilities.

PROCEDURE

- I. Psychiatric Services
 1. At facilities with a full-time Mental Health Clinician, psychiatric services will be provided.
 2. If necessary, psychiatric services may be offered at facilities without a full-time Mental Health Clinician with the approval of the Chief Psychiatrist.
- B. Psychiatrists, whether DOC staff, licensed independent practitioners, or staff of contractual service providers, must possess the following minimum qualifications and credentials:
 1. Have a Doctor of Medicine or a Doctor of Osteopathy degree from an accredited medical or osteopathic school.
 2. Have a current and valid license to practice medicine in the Commonwealth of Virginia.
 3. Have a current and valid Drug Enforcement Administration (DEA) permit.
 4. Have a current and valid National Provider Identifier (NPI).
 5. Be a graduate of a psychiatric residency with Virginia Board of Health Professions eligibility or certification, with post graduate and residency training in psychiatry from the Accreditation Council for Graduate Medical Education accredited or American Medical Association approved program(s).
- C. Advanced practice providers, whether DOC staff, licensed independent practitioners, or staff of contractual service providers, must possess the following minimum qualifications and credentials:
 1. A Master's or Doctoral degree from an accredited Nurse Practitioner (NP) or Physician Assistant (PA) program
 2. A National Certification
 3. A current and valid license to practice nursing and medicine for NP or a license to practice medicine for PA in the Commonwealth of Virginia
 4. A current and valid DEA permit
 5. A current and valid NPI
 6. Clinical experience in a psychiatric setting
 7. A collaborative agreement with a Virginia Board of Health Professions eligible or certified Psychiatrist when necessary
- D. A *National Practitioner's Data Bank Query* will be completed for all final candidates for the position of Psychiatric Provider prior to hiring; see Operating Procedure 701.1, *Health Services Administration*. Ongoing review of the *National Practitioner's Data Bank Query* will occur during the employment of any Psychiatric Provider.
- E. The Senior Mental Health Clinician, Chief Psychiatrist, Health Authority, or MCTC Medical Director, is responsible for the orientation of the Psychiatric Provider to the facility, including providing a copy and reviewing Attachment 1, *Treatment Guidelines: Psychiatric Services*. This orientation will be documented on the *Psychiatric Provider Orientation Checklist 720_F38*.
- F. The Senior Mental Health Clinician, Chief Psychiatrist, Health Authority, or MCTC Medical Director, will set up a means whereby psychiatric services, including the receipt and disposition of referrals, are regularly tracked and monitored.

- G. Psychiatric Providers whether DOC staff, licensed independent practitioners, or staff of contractual service providers will provide diagnostic and other data relevant to their services.
1. At a minimum, the Senior Mental Health Clinician or designee, Health Authority, or MCTC Medical Director or designee will provide the following data:
 - a. Name and DOC number of each inmate seen
 - b. Date of visit
 - c. Reason for visit
 - d. Current significant diagnoses using the current edition of the *Diagnostic and Statistical Manual of Mental Disorders*
 - e. Whether or not psychotropic medication is prescribed
 2. This data will be maintained electronically and updated at least quarterly.
- H. Inmates may be referred for psychiatric services by contacting the designated Mental Health Clinician at the facility, or the designated treatment staff at MCTC, who will evaluate the need for psychiatric services and schedule psychiatric appointments as needed.

II. Duties

- A. This section provides a list of the general duties and expectations for Psychiatric Providers.
- B. The general duties of a Psychiatric Provider may be modified by written specific contract, agreement, or employee work profile.
1. Perform evaluations and provide follow-up recommendations and psychopharmacological treatment for inmates referred for symptoms, which indicate the presence of psychiatric, psychological, behavioral, emotional, cognitive, and/or neurological disorders. These services may be provided via telehealth.
 2. Adhere to the DOC formulary; see Operating Procedure 720.5, *Pharmacy Services*.
 3. Consult with the Chief Psychiatrist or designee regarding care of inmates as required.
 4. Assess whether each inmate referred for evaluation has a psychiatric disorder.
 5. Make specific recommendations for further evaluation, medication, mental health and wellness services, environmental change, and/or hospitalization.
 6. Make recommendations for treatment, specifying conditions, and for medications, specifying type(s) of medication(s) and dosage(s).
 7. Refer inmates who require therapy or other mental health and wellness services to the Senior Mental Health Clinician or MCTC Medical Director for disposition. The Psychiatric Provider will confer, consult, and coordinate with the Senior Mental Health Clinician, Chief Psychiatrist, or MCTC Medical Director and other DOC staff in instances which may affect facility operations.
 8. Be responsible for involuntary commitment hearings and court-related activities as necessary, in consultation with the Senior Mental Health Clinician, Chief Psychiatrist, or MCTC Medical Director.
 9. Be available for emergency consultations by phone.
 10. Confer with mental health and wellness services, health services, and security staff during time not used in evaluation and treatment of inmates and in consultation with the Senior Mental Health Clinician, Chief Psychiatrist, or MCTC Medical Director, in the treatment and management of specific inmates, and in the prevention, recognition, handling, and treatment of psychiatric disorders generally.
 11. Confer on an on-going basis with the Senior Mental Health Clinician, Chief Psychiatrist, Health Authority, or MCTC Medical Director regarding the number of inmates and the means of interview and evaluation that will be used during each site visit.

12. Record a summary of the problem and/or symptoms, the diagnosis, progress since last consultation, recommendations for further evaluation, medication, mental health and wellness services, environmental change and/or hospitalization, and other information the Psychiatric Provider deems appropriate in each inmate's health record at the conclusion of every interview or consultation.
 - a. This information may be documented in the appropriate progress note format or on the *Psychiatry Progress Note 720_F40*.
 - b. An additional recording of information may also be required.
 13. Enter prescription orders using the current electronic medication prescribing system.
 14. Provide written back up prescriptions for releasing inmates as appropriate.
 15. Use onsite office space provided by the facility when providing services onsite.
 16. Use the services and staff employed by and/or under contract with the DOC for providing any recommended treatment or further evaluation.
 17. Abide by Attachment 1, *Treatment Guidelines: Psychiatric Services*.
- C. Licensed independent practitioners or contractual service providers may be required to have coverage provided by another Psychiatric Provider during absences. This Psychiatric Provider must be approved in advance by the Chief Psychiatrist.
- D. A Psychiatric Provider must immediately notify the DOC staff if license or hospital privileges are denied, suspended, or revoked; if any malpractice claims are filed; if any professional disciplinary action is taken; or if they have any physical, mental, or emotional problems which might impact performance or assigned duties.

III. Psychotropic Medications

- A. It is the responsibility of the Psychiatric Provider or designee to determine the clinical need for psychotropic medications. It is also the responsibility of the Psychiatric Provider or designee to prescribe, monitor, and document the use of psychotropic medications provided to inmates at the facility.
- B. Psychotropic medications are prescribed only by a Psychiatric Provider or designee and are administered by qualified health care provider under the direction of the designated Health Authority.
- C. Inmates who are prescribed psychotropic medications for mental disorders will be seen by the Psychiatric Provider:
 1. At least every 60 days if assigned to a Mental Health Unit (MHU)
 2. At least every 90 days if assigned to housing other than a MHU.
- D. The administration of medication for the purpose of coercion, punishment, etc. is prohibited.
- E. When prescribing psychotropic medication, the Psychiatric Provider will use best practices and must monitor for prescription drug misuse.
 1. Upon request, the Chief Pharmacist or designee will provide the Chief Psychiatrist with a list of all inmates who are prescribed psychotropic medication.
 2. If there is evidence of medication misuse by an inmate, the medication may be tapered and discontinued.
 3. If insufficient reasoning and/or documentation is found for prescribing the psychotropic medication, the medication may be tapered and discontinued.

IV. Informed Consent to Treatment with Medication (5-ACI-6C-04)

- A. Inmates are entitled to participate in the decision-making process regarding their mental health treatment.
 1. The Psychiatric Provider and Mental Health Clinicians will strive to enlist an inmate's adherence with

prescribed treatment regimens.

2. Inmates who refuse to take their medication will be informed of their right to refuse such medication and the conditions under which medication may be administered involuntarily as specified in COV §53.1-40.1, *Medical and mental health treatment of prisoners incapable of giving consent*.

B. Inmates will be advised of probable medical consequences of refusal to accept prescribed medication.

1. The Psychiatric Provider will also advise the inmate of potential benefits and possible side effects or other risks of the proposed treatment.
2. An inmate's consent to psychotropic medications will be documented on the *Informed Consent to Treatment with Medications 720_F39*.

C. When a change in medication, e.g., a change to a different medication and not just a change to the dose of the same medication is recommended for an inmate, a new *Informed Consent to Treatment with Medications 720_F39* will be completed and reviewed with the inmate.

D. The *Informed Consent to Treatment with Medications 720_F39* will list all of the currently prescribed psychotropic medications and the *Consent* will be signed by the current prescriber.

V. Right to Refuse Treatment and Involuntary Treatment

A. Inmates who are considered to have capacity to refuse mental health treatment, as determined by a Psychiatric Provider or a Mental Health Clinician, will not be forced to accept such treatment but will be monitored as considered appropriate by the Senior Mental Health Clinician, Chief Psychiatrist, or MCTC Medical Director. (5-ACI-6C-04)

B. Inmates who are considered to not have capacity to make medical decisions due to a mental disorder and who refuse mental health treatment may be considered for treatment over their objection; however, such treatment will be rendered only upon the issuance of a court order as outlined in COV §53.1-40.1, *Medical and mental health treatment of prisoners incapable of giving consent*; see Operating Procedure 730.3, *Mental Health Services: Levels of Service*.

C. When psychotropic medication(s) are involuntarily administered, the following conditions must be met: (5-ACI-6C-08)

1. Authorization is by a Psychiatric Provider who specifies the duration of therapy.
2. Less restrictive intervention options have been exercised without success as determined by the Psychiatric Provider.
3. Details are specified about why, when, where, and how the medication is to be administered.
4. Monitoring occurs for adverse reactions and side effects.
5. Treatment plan goals are prepared for less restrictive treatment alternatives with return to voluntary treatment as soon as clinically feasible.

D. An inmate will be offered the least intrusive care and treatment consistent with their diagnosed mental disorder(s).

1. Where possible, the inmate's assistance and cooperation with necessary treatment will be solicited.
2. If the inmate's refusal to accept psychiatric, health services, and mental health and wellness services poses a danger to that inmate or to others, or if the inmate's capacity to make such a decision is in question, staff will take appropriate steps to ensure the inmate's safety and well-being; see Operating Procedure 730.3, *Mental Health Services: Levels of Service*, and Operating Procedure 730.5, *Mental Health and Wellness Services: Behavior Management*.

E. Documentation of an inmate's refusal of treatment will be made via a *Psychiatry Progress Note* in Section IV of the inmate's health record and on an *Informed Consent to Treatment with Medications 720_F39*.

VI. Community Corrections Alternative Program Mental Health and Wellness Services

- A. CCAP probationers/parolees who require psychiatric services will be referred for such services under the direction of the Chief Psychiatrist, Chief of Mental Health and Wellness Services, Community Corrections Mental Health Clinical Supervisor, or designated Mental Health Clinician.
- B. The *CCAP Limited Psychotropic Self-Medication Program* will be managed in accordance with the Attachment 3 to Operating Procedure 940.4, *Community Corrections Alternative Program* and as authorized by the Chief Psychiatrist.
