PURPOSE
This operating procedure provides guidance under which offenders in Department of Corrections facilities may be granted access to telephone services. This privilege is always conditioned upon responsible use of the telephone in accordance with federal and state laws.

PROCEDURE

I. Offender Telephone System
   A. This operating procedure provides information to offenders on the offender telephone system; see Operating Procedure 440.3, Administration and Monitoring of Offender Telephones (Restricted), for the administration of and security considerations related to offender telephone services. (2-CO-5D-01)
   B. The offender telephone system is restricted to the equipment and services provided by the vendor pursuant to the service contract for the offender telephone system. (5-7D-4497-1; 4-4497-1; 4-ACRS-5A-19-1)
      1. The service contract complies with all applicable state and federal regulations.
      2. Contracts are based on rates and surcharges that are commensurate with those charged to the general public for like services. Any deviation from ordinary consumer rates reflects actual costs associated with the provision of services in a correctional setting.
      3. The contract for offender telephone services provides the broadest range of calling options that have been determined by the DOC to be consistent with the requirements of sound correctional management.
   C. Offender telephones may be installed in housing unit day rooms, dormitories, and recreation yards in accordance with facility mission and need.

II. Offender Enrollment
   A. Upon their reception into the DOC, offenders are automatically enrolled in the offender telephone system.
   B. The offender’s four-digit PIN number is automatically set to the offender’s month and date of birth (MMDD).
      1. The four-digit PIN number must be used in conjunction with the offender’s State ID number in order to access the offender telephone system.
      2. Any misuse of a PIN number by an offender may result in temporary or permanent withdrawal of telephone access privileges.
      3. An offender can report a PIN number problem to the vendor through the offender hotline (#21).
      4. When a PIN number is lost or replaced, the vendor will provide the offender with a new secured PIN number on an Offender Hotline Response.
   C. By activating their PIN number using the offender telephone system, the offender agrees to abide by the rules governing its use, and consents to the recording and monitoring of telephone calls.
      1. To assist offenders in proper use of the offender telephone system, Attachment 2, ICM Offender Dialing Instructions (Attachment 2S, Spanish) and Attachment 4, ICM Dialing Instructions for New Offenders (Attachment 4S, Spanish) should be posted at or near offender telephones.
      2. Upon intake into the DOC, each newly received offender must be provided with a copy of Attachment 4, ICM Dialing Instructions for New Offenders (Attachment 4S, Spanish) on the day of arrival.
      3. During reception or orientation, a copy of the ICM Offender Dialing Instructions may be distributed to each offender.
   D. The offender will create their call list by using the auto enrollment system (*44).
E. When an offender transfers to another DOC facility, the offender’s account should automatically transfer to the new facility within three hours after the offender’s arrival.

III. Offender Call Lists

A. Approved Call Lists
   1. Every offender using the offender telephone system is required to have an approved call list.
   2. Call lists are limited to 15 approved numbers, including attorney numbers and investigator’s hotline telephone numbers.
   3. Offender calls must be placed directly to, and terminate at, the number on the call list.
   4. All call list numbers remain active until the offender removes the number, or the subscriber requests a block or cancellation.

B. Additions to and Removals from the Call List
   1. Offenders will create their call list of up to 15 telephone numbers using the auto enrollment system by dialing *44.
   2. The offender may add and remove telephone numbers on their call list at any time by using the auto enrollment system.
      a. The offender must use the auto enrollment system to remove a telephone number prior to adding a new telephone number when the new number would exceed the maximum 15 telephone numbers allowed on the call list.
      b. Telephone numbers in a pending approval status are temporarily included in the maximum 15 telephone numbers allowed.
      c. No number will become active on an offender’s call list until consent to receive offender calls is granted by the telephone subscriber. This process may take several days.
   3. To grant consent to receive offender calls, the subscriber of the telephone number must respond to the following questions asked through the automated consent process.
      a. Are you the person authorized to make decisions for this telephone number?
      b. Please state your name.
      c. Do you understand that all calls are monitored and recorded? Except attorney calls with previously approved recording blocks.

C. Cellular or other wireless telephone numbers may be added to the call list and will be managed the same as landline telephones.

IV. Offender Access to Telephone Service

A. Scheduled telephone service hours vary based on facility security level and should be listed in the facility’s offender orientation materials or posted in designated facility locations accessible to offenders. (5-7D-4497; 4-4497)

All modifications must have the prior approval of the DOC Contract Administrator and Director.

j. *Community Corrections Facilities* - Community Corrections Facilities will generally comply with the requirements for institutions. These facilities may restrict access to telephones, including frequency of use and reduced time limits, to meet programmatic goals. (4-ACRS-5A-19)

iii. Calls will be placed through the administrative telephone system, at state expense and by prior arrangement, at times mutually convenient to both facilities.

d. An offender with immediate family in the military or otherwise located overseas may place an international call through the administrative telephone system. Note: International calls may not be possible to some countries or family members.

i. No more than three such calls per year are permitted; each call will be limited to 20 minutes.

ii. At each facility with offenders that qualify for international calls, an administrative telephone should be set up to allow for international calling.

   (a) A request identifying the specific telephone number to be granted international access must be submitted to the DOC Voice mailbox.

   (b) The Facility Unit Head should be copied on the request to verify their awareness that the request has been submitted.
(c) There is a nominal one-time fee added to the monthly bill when international access is set up.
(d) International access will remain active on that telephone until a request is submitted for removal.

iii. Staff will dial directly to the international number provided by the offender and confirm that the person answering is the desired recipient of the call.

iv. The offender should be allowed to speak for up to 20 minutes before the call is ended.

v. Facility staff must constantly observe (not necessarily listen to) the offender for the duration of the call to prevent misuse of the administrative telephone system.

vi. Staff placing the call must document the number and person called, time and date the call is placed, and the offender’s name and number.

vii. The facility may be billed for the international call. The cost will be paid by the facility with no effort made to recover the cost from the offender.
