AUDIT FINDINGS

NARRATIVE:

A Prison Rape Elimination Act Audit of Indian Creek Correctional Center was conducted from June 22, 2015 to June 23, 2015. The purpose of the audit was to determine compliance with the Prison Rape Elimination Act standards which became effective August 20, 2012. Certified PREA Auditor William Boehnemann assisted with the onsite audit and interviews.

An entrance meeting was held with the following persons: James S. Keeling, Warden; JoAnn Halsey-Harris, Assistant Warden; Cindy Norman, Business Manager; Dr. Brockington, Psychologist, Sr.; Sylvester Watkins, Human Resources Manager; Thomas A. Sawyer, Major; John Nida, Captain; Pamela Wood, Unit Manager; Anthony White, Unit Manager; Rose Durbin, PREA Analyst; Lawanda Long, PREA Analyst; Dhara Amin, PREA Hotline Coordinator; and Stephanie Lawson, Operations Manager/PREA Compliance Manager.

The auditor wishes to extend its appreciate to Warden Keeling and his staff for the professionalism they demonstrated throughout the audit and their willingness to comply with all requests and recommendations made by the auditor.

The auditor would also like to recognize PREA Coordinator Elisabeth Thornton, PREA Analyst Lawanda Long, PREA Analyst Rose Durbin, and PREA Compliance Manager Stephanie Lawson for their hard work and dedication to ensure the facility is compliant with all PREA standards.

After the entrance meeting the auditor was given a tour of all areas of the facility, including; all general population housing units, visitation, gymnasium, Department of Education, classrooms,

study hall, Intensive Training Unit/Restricted Housing, enterprise, commissary, chapel, medical, medical observation units, property, kitchen, dining area, maintenance/warehouse, laundry, intake, law library, library, and barber shop. During the tour, several informal interviews were conducted with inmates and staff throughout the facility.

A total of 29 staff were interviewed with at least one staff member interviewed from each interview category, with the exception of the interviews related to educational staff who work with youthful inmates, line staff who supervise youthful inmates, Agency Contract Administrator, and non-medical staff involved in cross-gender searches (these interview types did not apply to this facility). Staff interviews were conducted on all three shifts.

A total of 14 inmates were interviewed with at least one inmate interviewed from each interview category, with the exception of youthful inmates, disabled/limited English inmates, transgender/intersex inmates, and inmates placed in segregated housing for risk of sexual victimization (these interview types did not apply to this facility).

Telephone interviews were conducted with the SAFE/SANE staff. The auditor was provided with the Agency Head and PREA Coordinator interview notes from another certified auditor who recently conducted audits for the agency. These responses were used for this audit.

The count on the first day of the audit was 1007. The count on the final day of the audit was 998.

Throughout the pre-audit and onsite audit, open and positive communication was established between the auditor and facility staff. During this time, the auditor discussed his concerns with PREA Coordinator Elisabeth Thornton, PREA Analyst Lawanda Long, and PREA Compliance Manager Stephanie Lawson. Through a coordinated effort by these key staff members as well as other staff, all issues were addressed and corrected to the satisfaction of the auditor prior to the completion of the Final Report.

When the audit was completed, the auditor conducted an exit briefing on June 23, 2015. The auditor gave an overview of the audit and thanked the staff for all their hard work and commitment to the Prison Rape Elimination Act.

DESCRIPTION OF FACILITY CHARACTERISTICS:

Indian Creek is a multidisciplinary therapeutic community for the treatment of substance abuse in a safe, secure environment; teaching and equipping inmates with an alternative lifestyle and enabling them to return to society as responsible, productive citizens free of addictive and criminal behavior.

Indian Creek is comprised of 7 Housing Units, Support Building, Smith Hall, Programs Building, Administration Building, and a Maintenance/Warehouse Building.

Housing Unit 1 through 6 are dormitory-style buildings which consist of 2 sides; the A-side and the B-side. Each side houses approximately 80 offenders.

Housing Unit 1A is the TC Orientation Building. It houses new intakes from other institutions that have been deemed suitable for the Therapeutic Community Program. While in this housing unit, they will be screened and evaluated to determine their Individual Treatment Plan. This process is very important because it lays the foundation for offenders to learn and understand the rules and expectations of the program. This is also where offenders learn the rules and regulations of Indian Creek.

Housing Unit 7 is a 48 celled building which is divided into 2 sides. The A side is used to house TC Offenders who are having program compliance issues. The B side houses Special Housing Offenders.

The Support Building is comprised of a VCE operation, Canteen, Medical Department, Security/Watch Commander's Office, Property/Intake, Kitchen, offender and staff dining halls, Laundry, and 3 DCE vocational classes.

Smith Hall is made up of 13 classrooms, an auditorium and office spaces where the CEC staff operate. This building is the primary location for TC groups and meetings. Smith Hall is one of the only buildings within the Department of Corrections that has been dedicated to an individual. It was dedicated to the memory of the late Warden James A. Smith, who was the Warden of Indian Creek from August 1, 1996 through January 24, 1998.

The Programs Building is comprised of the DCE classrooms, DCE library, Psychology Department, Grievance Office, Barber Shop, Gymnasium, Visitation Room, Chaplin's Office, and Operations. The Operations section consists of the Treatment Department, the Chief of Security and the Assistant Warden (AW).

Outside the security perimeter is the Administration Building which consists of the Warden's office, Business office, Human Resources, Offender Records, Mailroom, Training Department, Master Control, and the lobby/main entrance into the facility.

The Maintenance Department/Warehouse is also outside the security perimeter. It consists of the warehouse which handles all deliveries to and from the institution. The maintenance department is responsible for the upkeep of all institutional buildings and equipment.

SUMMARY OF AUDIT FINDINGS:

Number of standards exceeded:	2
Number of standards met:	39
Number of standards not met:	0
Not Applicable:	2

§115.11 - Zero tolerance of sexual abuse and sexual harassment; PREA coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operating Procedure: 038.3 states the DOC prohibits and will not tolerate any fraternization or sexual misconduct by staff, contractors, or volunteers with offenders, or between offenders as defined in this operation procedure. The DOC actively works to prevent, detect, report, and respond to any violation. This procedure also provides information on preventing, detecting, and responding to such conduct, and also includes definitions of prohibited behaviors regarding sexual assault and sexual harassment.

Operating Procedure: 130.1 states the Department of Corrections has zero tolerance for all forms of sexual abuse and sexual harassment. This procedure defines prohibited behaviors regarding sexual assault and sexual harassment, and includes sanctions for those found to have participated in prohibited behaviors.

Both the PREA Coordinator and PREA Compliance Manager acknowledge they have sufficient time to manage their PREA Responsibilities. The agency has also utilizes three PREA Analysts to assist the PREA Compliance Managers within their region.

During the onsite audit, the auditor discovered the agency has sent multiple staff to the Department of Justice Auditor training. The auditor was advised this is an example of the agency's commitment to the Prison Rape Elimination Act.

§115.12 - Contracting with other entities for the confinement of inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The agency has entered into or renewed two contracts for the confinement of inmates on or after August 20, 2012. Both of these contracts were between Lawrenceville Correctional Center and GEO (2014 and 2015).

The auditor reviewed a copy of the contract and discovered language requiring GEO to adopt and comply with the Federal Prison Rape Elimination Act.

§115.13 - Supervision and Monitoring

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operating Procedure: 401.2 states each facility shall develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect offenders against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:

- a. Generally accepted detention and correctional practices

- b. Any judicial findings of inadequacy
- c. Any findings of inadequacy from Federal investigative agencies
- d. Any findings of inadequacy from internal or external oversight bodies
- e. All components of the facility's physical plant (including "blind-spots" or areas where staff or offenders may be isolated)
- f. The composition of the offender population
- g. The number and placement of supervisory staff
- h. Institution programs occurring on a particular shift
- I. Any applicable State or local laws, regulations, or standards
- j. The prevalence of substantiated and unsubstantiated incidents of sexual abuse
- k. Any other relevant factors

In circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan.

By January 31 of each year and more frequently if needed, each facility shall review any existing staffing plan and post audits.

a. This review shall assess, determine, and document whether adjustments are needed to:

- i. The facility's established staffing plan
- ii. The facility's deployment of video monitoring systems and other monitoring technologies
- iii. The resources the facility has available to commit to ensure adherence to the staffing plan

b. If the review indicates that the facility is not staffing to plan or staffing to post audits, the facility must provide a comprehensive written explanation as to why they are not able to staff to post audits and possible solutions to increase facility staffing levels

c. These comprehensive written explanations shall be provided to the Regional Operations Chief for review and forwarding to the Regional PREA Analyst

During the pre-audit, the auditor was provided with a copy of detailed staffing plans dated September 3, 2013 and January 28, 2015.

Since August 20, 2012, the average daily number of inmates was 980.

Since August 20, 2012, the average daily number of inmates on which the staffing plan was predicated was 1008.

The six most common reasons for deviating from the staffing plan in the past 12 months are; positions held for budget, staff on short-term disability, staff attending mandated training, staff scheduled leave time, call-ins, and time adjustments for staff.

Operating Procedure 401.3 states ADO's conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Unannounced rounds should be made intermittently during the month.

Operating Procedure 401.1 states Post Orders shall require that Lieutenants and above conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment.

a. Supervisors are prohibited from notifying staff of unannounced rounds

During the pre-audit, the auditor was provided with and reviewed a sample of unannounced rounds by supervisors. The documentation of unannounced rounds showed they have occurred on all three shifts.

During the onsite tour, the auditor discovered two unlocked inmate restrooms in the kitchen area. One of the restrooms had multiple toilets without any privacy walls separating them. The other restroom had a single toilet. The auditor recommended making it standard practice to only allow one inmate inside each restroom at any given time. Staff complied with this request. In addition, staff submitted a work order to replace the restroom doors with lockable doors with vision panels.

Staff interviews indicate the facility has a staffing plan the follow which includes a minimum requirement of two staff per housing unit (one control officer and one officer). The facility deviates from this minimum requirement. Video monitoring, including "Rapid Eye" video technology is a part of this plan. The staffing plan is kept in the warden's office. All required staffing plan guidelines under 115.13 are a part of the facility's staffing plan. The Watch Commanders are responsible for making sure all positions on their shift are covered. In the event a staff member calls in, another staff member would be drafted from the overtime list to fill this position. The Warden is able to monitor this by reviewing the staffing information listed on the Watch Commander's Activity Report that is submitted daily, at the end of each shift. The staffing plan is developed at the facility level and submitted to the PREA Analyst for review. The staffing plan is then reviewed by both the PREA Analyst and PREA Coordinator before it is signed off on. Staffing plans are reviewed annually, or when the need is identified.

Unannounced intermediate and upper-level supervisor rounds occur on all three shifts and are completely random. They are logged in the log books located in the control room of each housing unit.

§115.14 – Youthful Inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

XX Not Applicable

Operating Procedure 038.3 states a youthful inmate shall not be placed in a housing unit in which the youthful inmate will have sight, sound, or physical contact with any adult inmate through use of a shared dayroom or other common space, shower area, or sleeping quarters. DOC provides specialized housing arrangements for youthful inmates to meet the requirements of this standard. Exigent circumstances may require removal to a special housing unit.

During the pre-audit, the auditor was provided with a copy of a memo from the PREA Coordinator to all Wardens advising the Wardens that all youthful offenders will be housed at Sussex I facility. The memo was dated February 12, 2013. The auditor was also provided with a copy of a memo from the Warden of Indian Creek Correctional Center, advising they do not house youthful offenders at their facility.

§115.15 – Limits to Cross-Gender Viewing and Searches

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operation Procedure 445.1 prohibits cross-gender strip or cross-gender visual body cavity searches absent exigent circumstances. Policy requires all cross-gender strip-searches and cross-gender visual body cavity searches be documented.

In the past 12 months, there have not been any cross-gender strip or cross-gender body cavity searches of inmates.

In the past 12 months, there have not been any cross-gender strip or cross-gender visual body cavity searches of inmates that did not involve exigent circumstances or were performed by non-medical staff.

Female inmates are not housed at Indian Creek Correctional Center.

Operating Procedure 401.2 states officers of the opposite gender should be allowed to supervise offender housing areas, with appropriate physical modifications made to toilet and shower areas to provide a reasonable degree of offender privacy. Facility procedures and practices shall enable offenders to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Staff of the opposite gender shall announce their presence when entering an offender housing unit. These announcements shall be documented in the log book.

During the pre-audit, the auditor was provided with a memo from the Chief of Corrections Operations, dated March 20, 2014. The memo stated staff of the opposite gender shall announce their presence when entering an offender housing unit. These announcements shall be documented in the log book.

Operating Procedure states staff of the opposite gender shall announce their presence when entering an offender housing unit.

During the pre-audit, the auditor was provided with a sample of round sheets showing female staff are documenting their announcement of female on the floor (FOF).

Operating Procedure 445.1 states a transgender or intersex offender shall not be searched or physically examined for the sole purpose of determining the offender's genital status. If the offender's genital status is unknown, it may be determined through conversation with the offender, a review of the medical record, or if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

Operating Procedure 350.2 states all new corrections officers (and any other offender care workers at Detention/Diversion Centers) receive at least 120 hours of training (in addition to orientation) during their first year of employment. Training includes cross gender frisk searches and searches of transgender and intersex offenders are conducted in a professional and respectful manner and in a least intrusive manner possible consistent with security needs.

During the pre-audit, the auditor was provided with a memorandum to security staff dated August 21, 2014. The memo stated female correctional staff shall conduct all frisk

searches of transgender or intersex offenders unless exigent circumstances are present and documentable. Transgender and intersex offenders expressing a preference regarding the sex of the correctional staff conducting the strip search should request consideration of their preference in writing to the facility Treatment Team for review.

During the pre-audit, the auditor was advised 100% of all security staff who received training on conducting cross-gender pat-down searches and searches of transgender and intersex inmates in a professional and respectful manner, consistent with security needs.

Staff interviews indicate they were trained within the past month on how to conduct cross-gender pat-down searches and searches of transgender/intersex inmates. Whenever a female staff enter a housing unit, an announcement of their presence is made prior to entering. This is also logged in the log book located in the control room of the housing unit. Inmates are never viewed by female staff while in a state of undress.

Inmate interviews indicate female staff announce their presence prior to entering the housing unit. Inmates also stated they are never viewed by female staff while in a state of undress.

During the onsite tour, the auditor observed the announcement of female staff being made prior to entering the housing units.

§115.16 – Inmates with Disabilities and Inmates who are Limited English Proficient

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operating Procedure 038.3 has specific language for offenders with disabilities and offenders who are limited English proficient. Policy states the DOC shall take appropriate steps to ensure that offenders with disabilities (including, for example, offenders who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with offenders who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized

vocabulary. The DOC shall ensure that written materials are provided in formats or through methods that ensure effective communication with offenders with disabilities, including offenders who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The DOC is not required to take actions that it can demonstrated would result in a fundamental alteration in the nature of service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under title II of the Americans with Disabilities Act, 28 CFR 35.164. The DOC shall take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to offenders who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. The DOC shall not rely on offender interpreters, offender readers, or other types of offender assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the offender's safety, the performance of first-response duties under, or the investigation of the offender's allegations.

During the pre-audit, the auditor was provided with a copy of a contract with Purple Language Services, Co. for sign language translation and video remote interpreting. This contract was dated February 10, 2015, and expires on April 30, 2016.

During the pre-audit, the auditor was provided with sexual assault awareness brochures in English and Spanish, as well as a brochure for the hearing impaired. The auditor was also provided with education transcribed in braille.

In the past 12 months, there have not been any instances where inmate interpreters, readers, or other types of inmate assistants have been used and it was not the case that an extended delay in obtaining another interpreter could compromise the inmate's safety, the performance of first-response duties under 115.64, or the investigation of the inmate's actions.

The auditor was provided with contact information including the phone and pin number for the Vernacular Language Interpreter Services. The auditor tested the language line and was able to confirm the agency's availability to interpreter services.

Hearing impaired inmates are housed at Greenville Correctional Center and inmates who are vision impaired are housed at Deerfield Correctional Center. Several facilities within the agency have mental health units to accommodate inmates with mental disabilities.

Staff interviews indicate staff were also aware of the agency policy prohibiting the use of inmate interpreters whenever an inmate alleges sexual abuse.

During the onsite tour, the auditor was advised there currently were neither inmates with disabilities, nor those who are limited English housed at Indian Creek Correctional Center.

§115.17 – Hiring and Promotion Decisions

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operating Procedure 101.8 states the DOC shall not hire or promote anyone who may have contact with offenders, and shall not enlist services of any contractor who may have contact with offenders who:

- a. Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997.
- b. Has been civilly or administratively adjudicated to have engaged or has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, over or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse.

The DOC shall consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with offenders.

Before hiring new employees who may have contact with offenders, the DOC shall:

- a. Perform a criminal background records check
- b. Consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

In the past 12 months, there have been 39 persons hired who may have contact with inmates who have had criminal background records checks. This equates to 100% of all persons hired within the last 12 months.

The DOC shall also perform a criminal background records check before enlisting the services of any contractor who may have contact with offenders.

In the past 12 months, there have been three contracts for services where criminal background record checks were conducted on all staff covered in the contract who might have contact with inmates.

Material omissions regarding misconduct, or the provision of materially false information, shall be grounds for termination.

The DOC shall conduct criminal background records checks at least every 5 years of current employees and contractors. A criminal background record check will be conducted annually for sensitive specialist assignments. The Human Resources Officer for each organizational unit shall ensure criminal background record checks are conducted and documented as required. The Human Resources Officer shall document in the Access Employee Database that the criminal records check (VCIN) was conducted.

Staff interviews indicate criminal background checks are conducted on both security staff as well as contractors and volunteers. Past incidents of sexual abuse and sexual harassment are considered when determining whether or not to hire or promote an employee. All applicants are checked using the State database as well as NCIC. PREA questions are asked as a part of the application as well as during any promotional process. The facility imposes upon employees a continuing affirmative duty to disclose any such previous misconduct. Whenever a former employee applies for work at another institution, the facility would provide information on substantiated allegations of sexual abuse and sexual harassment involving the former employee.

§115.18 - Upgrades to Facilities and Technology

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operating Procedure 801.1 states the effect of the facility's design, acquisition, expansion or modification on the facility's ability to protect the offender from sexual abuse shall be taken into consideration when designing or acquiring any new facility and in planning any substantial expansion or modification to an existing facility. For new installations or updates to existing video monitoring systems, electronic surveillance systems or other monitoring technologies, the facility shall take into consideration how such technology may enhance their ability to protect offenders from sexual abuse.

The agency/facility has not acquired any new facilities or made any substantial expansions or modifications of existing facilities since August 20, 2012.

The agency/facility has not installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology since August 20, 2012.

Staff interviews indicate the agency/facility has not acquired any new facilities or made any substantial expansions or modifications of existing facilities since August 20, 2012. Cameras are located throughout the institution and positioned in a manner to eliminate blind spots. Cameras are recorded and are used as an investigative tool. The agency conducts internal security audits staffed with highly experienced, multi-disciplinary teams. These audits include checks of cameras to ensure they are recording and covering the appropriate areas. They are conducted on an annual basis or more often, if warranted.

§115.21 – Evidence Protocol and Forensic Medical Examinations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The agency/facility is responsible for conducting administrative or criminal sexual abuse investigations (including inmate-on-inmate sexual abuse or staff sexual misconduct).

Operating Procedure 030.4 is the agency procedure for evidence protocol and forensic medical examinations. Policy states SIU has an established uniform evidence protocol which maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. The established protocol is developmentally appropriate for youth and is based on or similar to other comprehensive and authoritative proceedings and criminal prosecutions. The established protocol is developmentally appropriate for youth and is based on or similar to other comprehensive and authoritative protocols developed after 2011. If requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interview.

During the pre-audit, the auditor was provided with documentation showing the agency has 4 separate forensic examination providers available in the Tidewater Region.

Operating Procedure 720.7 states if evidentiary or medically appropriate, victims of sexual assault are referred under appropriate security provisions to a community facility for treatment and gathering of evidence. A history is taken by a health care professional who will conduct a forensic medical examination to document the extent of physical

injury. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. There will be no financial cost to the offender for this examination. As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals. A qualified DOC Mental Health/counseling staff member or a qualified community-based staff member shall be an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination issues in general. With the victim's consent, the examination includes the collection of evidence from the victim, using a kit approved by the appropriate authority (PERK kit recommended). Although it is recommended that a PERK kit be collected within 72 hours, it should be beyond that time whenever there is possibility of evidence remaining. If the offender alleging assault refuses to be examined, it shall be documented in the Health Record and the offender shall sign a Health Services Consent to Treatment; Refusal 720_F3. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners.

During the pre-audit, the auditor was provided with documentation from the Warden, dated March 31, 2015, stating the facility has not had any instances in which an offender was sexually abused and sent out for a Physical Evidence Recovery Kit (PERK) or examined by a Sexual Assault Forensic Examiner (SAFE)/Sexual Assault Nurse Examiner (SANE).

During the pre-audit, the auditor was provided with documentation showing the agency has an existing MOU with Virginia Sexual & Domestic Violence of Sexual Abuse to provide support services to victims of sexual abuse. In addition, several DOC employees volunteered and were trained by Action Alliance to provide victim advocacy services.

During the pre-audit, the auditor was advised the agency did not have any formal MOUs for SAFE/SANE exams; however, the auditor was provided with a list of local contacts who would be capable of providing these services. The auditor contacted one of the contacts, Chesapeake Forensic Specialists, LLC, and was advised they would be able to conduct forensic examinations for Indian Creek Correctional Center. The auditor was advised they would always have staff available to conduct the exams, and their response time would typically be within an hour.

Random staff indicated they were aware of how to collect usable, physical evidence and knew who was responsible for conducting sexual abuse investigations. Staff indicated

victim advocate services would be provided by Action Alliance or by staff member trained in providing these services.

§115.22 – Policies to Ensure Referrals of Allegations for Investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operating Procedure 030.4 states the SIU is responsible for conducting administrative and/or criminal investigations into allegations of sexual abuse or sexual harassment in DOC facilities as outlined in this procedure. The SIU is responsible for conducting investigations on all incidents of sexual abuse and sexual harassment.

During the past 12 months, there have been 13 allegations of sexual abuse and sexual harassment that were received.

During the past 12 months, there have been 13 allegations resulting in an administrative investigation.

During the past 12 months, there have not been any allegations referred for criminal investigation.

Referring to allegations received during the past 12 months, all administrative and/or criminal investigations were completed.

Operating Procedure 038.3 states an administrative or criminal investigation conducted in accordance with PREA standards shall become completed for all allegations of sexual abuse and sexual harassment. Initial investigation may be conducted by the facility investigator. Unless it is quickly and definitively determined that the allegation is unfounded, allegations of sexual abuse or sexual harassment shall be referred for investigation to the DOC Special Investigations Unit. The facility shall document all such referrals. The Special Investigations Unit (SIU) shall conduct investigations into criminal behavior, procedural or administrative violations, or employee misconduct affecting the operations of the DOC. The Chief of Special Investigations Unit or a designee shall review the nature of the allegations received to determine if an investigation is warranted. Upon notification of an allegation of sexual abuse or misconduct, investigative staff shall follow Operating Procedure 030.4, Special Investigations Unit.

During the pre-audit, the auditor located the policy stating referrals of allegations of sexual abuse or sexual harassment for criminal investigation on the agency website (<https://vadoc.virginia.gov/about/procedures/documents/030/038-3.pdf>).

Staff interviews indicate the DOC has a Special Investigation Unit (SIU) with law enforcement authority to investigate crimes in facilities within the DOC. Institutional Investigators handle administrative investigations at the facility. When an allegation is received, the warden of the facility, the institutional investigator, and the PREA Analyst are notified. If the allegation is criminal in nature, SIU would also be notified. Staff would ensure the victim is protected and all protocols are instituted. Any allegation received from another agency is processed the same way. If an allegation is received that happened at another agency, the DOC reports these allegations on to the respective authority.

§115.41 – Screening for Risk of Victimization and Abusiveness

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operating Procedure 810.1 states a counselor or other non-clerical reception center staff shall assess all offenders during reception for their risk of being sexually abused by other offenders or sexually abusive toward other offenders. The assessment shall be completed and approved within 72 hours of arrival at the facility. Reception center staff will interview and evaluate all incoming offenders for High Risk Sexual Aggressor (HRSA) and/or High Risk Sexual Victim (HRSV) tendencies utilizing the results of the Classification Assessment in VACORIS and available offender records.

There have been 561 inmates entering the facility (either through intake or transfer) within the past 12 months (whose length of stay in the facility was for 72 hours or more) who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility.

Screenings occur within 72 hours of intake. Risk screening includes, but is not limited to: prior victimization, stature of the inmate, whether or not the inmate feels vulnerable, whether or not they have committed any sexual abuse/harassment in the past, whether they consider themselves to be lesbian, gay, bisexual, transgender, intersex, or gender non-conforming, as well as the inmate's age. The screening instrument consists of yes or no questions. An inmate's risk level is reassessed as needed due to referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness. All inmates are reassessed within 30 days of

their initial assessment as well as during their annual review. Inmates are not disciplined in any way for refusing to respond to, or for not disclosing complete information related to, risk screening questions. The agency has limited access to information from the risk screenings to the Warden, Assistant Warden, investigators, and the operations officer.

Random inmate interviews indicate inmates were screened within 72 hours of intake and again during their annual review. Inmates did not remember being screened within 30 days of intake.

§115.42 - Use of Screening Information

Operating Procedure 038.3 states the DOC shall use information from the offender risk screening to inform housing, bed, work, education, and program assignments with the goal of keeping separate those offenders at high risk of being sexually victimized from those at high risk of being sexually abusive. The DOC shall make individualized determinations about how to ensure the safety of each offender. Specialized decisions to provide specific individual accommodations to transgender or intersex offenders and offenders diagnosed by Mental Health staff with Gender Dysphoria shall be made by the Gender Dysphoria Committee. In deciding whether to assign a transgender or intersex offender to a facility for male or female offenders, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the offender's health and safety, and whether the placement would present management or security problems.

During the pre-audit, the auditor was provided with a memo from the Warden, dated March 31, 2015, advising during this audit cycle there have not been any transgender or intersex inmates assigned to Indian Creek Correctional Center.

Staff interviews indicate medical and mental health staff are made aware of any inmates who screen as victims as well as those screening as being abusive. Medical and mental health staff will conduct follow-up evaluations. Housing is determined based on the screenings with the goal of housing these two types of inmates separate from one another. These bunk assignments will typically be assigned closer to the control rooms for more direct observation by security staff. Transgender or intersex inmates' views

with respect to his or her own safety are given serious consideration in placement and programming assignments.

The Regional PREA Analyst must be notified. If the institution cannot conduct an assessment immediately, the Shift Commander may place the offender in Special Housing on General Detention for no more than 24-hours while completing the assessment. The institution must clearly document the basis for the institution's concern for the offender's safety and the reason why no alternative means of separation can be arranged.

There have not been any inmates at risk of sexual victimization who were assigned to involuntary segregated housing in the past 12 months for longer than 30 days while awaiting alternative placement.

During the pre-audit, the auditor was provided with a memo from the Warden, dated March 31, 2015, stating Indian Creek Correctional Center has not had any inmates at high risk for sexual victimization placed in involuntary segregated housing.

Staff interviews indicate they would not place inmates at high risk for sexual victimization or who have alleged sexual abuse in involuntary segregated housing in lieu of other housing areas, unless an assessment has determined there are no available alternative means of separation from potential abusers. If an inmate was placed in involuntary segregated housing for this reason, they would only be housed there until alternative means of separation from likely abusers can be arranged. Staff indicated they have never had to use involuntary segregated housing for this reason.

Staff interviews indicate staff and inmates can privately report sexual abuse or sexual harassment by sending a private report to the Watch Commander or by calling the PREA Hotline at #55 for inmates, 1-855-602-7001 for staff. Staff acknowledged they would accept reports from inmates regardless of whether they were verbal, written, anonymous, or from third parties. Verbal reports would be documented by staff, immediately after receiving the report.

Operating Procedure 038.3 states each facility shall develop a written institutional plan to coordinate actions taken in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership.

During the onsite audit, the auditor was provided with a copy of the facility's coordinated response plan (ICCC Attachment #1 to OP 038.3). A review of the response plan indicates areas of responsibility are clearly outlined.

§115.66 – Preservation of ability to protect inmates from contact with abusers

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

For at least 90 days following a report of sexual abuse, the DOC shall monitor the conduct and treatment of offenders or staff who reported the sexual abuse and of offenders who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by offenders or staff, and shall act promptly to remedy any such retaliation. Items to be monitored include any offender disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The DOC shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need.

The facility designated the Operations Manager as the staff member charged with monitoring retaliation.

In the past 12 months, there have not been any incidents of retaliation that have occurred.

During the pre-audit, the auditor was provided with a documentation of notes, monitoring for retaliation.

Staff interviews indicate the PREA Compliance Manager monitors retaliation for up to 90 days. Retaliation may be monitored beyond 90 days, if warranted. If a staff member was involved, the staff member would be separated from the inmate and may receive disciplinary action commensurate with the type of behavior taken. If an inmate retaliates against another inmate, the aggressor would be locked down. Other options to protect against retaliation include protective custody and/or transfer to another facility.

§115.68 – Post-Allegation Protective Custody

- Exceeds Standard (substantially exceeds requirement of standard)

- Does Not Meet Standard (requires corrective action)

Operating Procedure 425.4 states, for an offender identified as HRSV or an alleged victim of sexual abuse who has been assigned to Special Housing without their consent, Mental Health staff shall advise the ICA on whether the offender can be released to General Population or whether they must be assigned to Segregation and/or transferred to the DOC Protective Custody Unit. Involuntary assignment to Segregation shall only be made until an alternative means of separation from likely abusers can be arranged. The ICA must clearly document the basis for the institution's concern for the offender's safety and the reason why no alternative means can be arranged. This assignment shall not ordinarily exceed a period of 30 days.

During the past 12 months, there have not been any inmates who allege to have suffered sexual abuse who were held in involuntary segregated housing for one to 24 hours awaiting completion of an assessment.

During the past 12 months, there have not been any inmates who allege to have suffered sexual abuse who were assigned to involuntary segregated housing for longer than 30 days while awaiting an alternative assessment.

If an involuntary segregated housing assignment is made, the facility affords each such inmate a review every 30 days to determine whether there is a continuing need for separation from the general population.

Staff interviews indicate the agency has a policy prohibiting placing inmates at high risk for sexual victimization or who have alleged sexual abuse in involuntary segregated housing in lieu of other housing areas, unless an assessment has determined there are no available alternative means of separation from likely abusers. If an inmate were to be held in involuntary segregated housing for this reason, they would be moved as soon as less restrictive housing became available.

Staff interviews indicate investigative staff received training on conducting sexual abuse investigations in confinement settings. Training topics include: techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative or prosecution referral. A standard of preponderance of evidence is used to substantiate allegations of sexual abuse and sexual harassment. Facility investigators conduct administrative investigations and SIU would

conduct criminal investigations. Facility investigators would work in tandem with SIU and assist SIU in any way possible.

All terminations for violations of DOC sexual abuse or sexual harassment policies, or resignations by staff that would have been terminated if not for their resignation, shall be reported to any relevant licensing bodies by the DOC PREA Coordinator, and to law enforcement agencies, unless the activity was clearly not criminal.

During the past 12 months, there have not been any staff from the facility who have been terminated (or resigned prior to termination) for violating agency sexual abuse or sexual harassment policies.

Operating Procedure 135.1 states disciplinary sanctions for violations of DOC policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed,

the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories.

In the past 12 months, there have not been any staff from the facility who have been disciplined, short of termination, for violation of agency sexual abuse or sexual harassment policies.

Operating Procedure 135.1 states staff who are terminated, or who choose to resign in lieu of termination, for violation of the DOC sexual abuse or sexual harassment policies shall be informed of the DOC's reporting the employment action to any relevant licensing bodies and to law enforcement agencies, unless the activity was clearly not criminal.

In the past 12 months, there have not been any contractors or volunteers reported to law enforcement for engaging in sexual abuse of inmates.

Staff interviews indicate any contractor or volunteer who violated agency sexual abuse or sexual harassment policies would be banned from the facility and from all contact

with inmates, pending an investigation. If the actions were criminal in nature, the agency would seek criminal charges. Remedial measures including counseling the contractor or volunteer on their behavior, may be considered if the behavior was a minor violation of policy.

In the past 12 months, there have not been any criminal findings of inmate-on-inmate sexual abuse that have occurred at the facility.

The pre-audit questionnaire indicates this facility offers therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse.

Operating Procedure 820.2 states facilities that offer therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for sexually abusive behavior shall determine if offenders who are found guilty of a disciplinary or criminal offense for sexual abuse are required to participate in such interventions as a condition of access to programming or other benefits.

Operating Procedure 038.3 states offenders shall not be charged for reports of sexual abuse made in good faith, based upon a reasonable belief that the alleged conduct occurred.

During the pre-audit, the auditor was provided with documentation dated March 31, 2015, stating there were no instances where an inmate was subject to disciplinary sanctions for engaging in inmate-on-inmate sexual abuse.

Staff interviews indicate inmates would be subject to disciplinary sanctions following an administrative or criminal finding that the inmate engaged in inmate-on-inmate sexual abuse. Inmates would receive an institutional charge for misconduct. If the actions were non-consensual, the inmate abuser would receive criminal charges from SIU.

Disciplinary sanctions are proportionate to the nature and circumstances of the abuses

committed, the inmates' disciplinary histories, and the sanctions imposed for similar offenses by other inmates with similar histories. An inmate's mental disability or mental illness is considered when determining sanctions.

Medical and mental health staff interviews indicate they provide therapy, counseling, or other intervention in an attempt to address and correct the underlying reasons or motivations for sexual abuse. When these services are provided, staff gauge an inmate's participation as a condition of access to programming or other benefits.

§115.81 – Medical and mental health screenings; history of sexual abuse

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

In the past 12 months, no inmates who disclosed victimization during screening were offered a follow-up meeting with a medical or mental health practitioner.

In the past 12 months, no inmates who have previously perpetrated sexual abuse, as indicated during the screening, were offered a follow up meeting with a mental health practitioner.

During the pre-audit, the auditor was provided with sample documentation of medical/mental health referrals and tracking charts.

Operating Procedure 701.3 states medical and mental health practitioners shall obtain informed consent from offenders before reporting information about prior sexual

victimization that did not occur in an institutional setting, unless the inmate is under the age of 18.

During the onsite audit, the auditor reviewed a random sample of screenings and discovered the follow-up mental health evaluations are occurring within 14 days of the risk screening.

Inmate interviews indicate inmates who disclose sexual victimization at risk screening are offered a follow-up evaluation with medical and/or mental health staff.

Staff interviews indicate inmates who disclose sexual victimization at risk screening are offered a follow-up evaluation with medical and/or mental health staff. Those inmates who have previously perpetrated sexual abuse are also offered follow-up evaluations. Typically, follow-up medical and mental health follow-up evaluations occur within 24-48 hours.

§115.82 - Access to emergency medical and mental health services

- Exceeds Standard (substantially exceeds requirement of standard)

Offender victims of sexual abuse while incarcerated shall be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Treatment and services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

During the pre-audit, the auditor was provided with documentation dated March 31, 2015, stating there have been no instances of sexual assaults that required emergency medical treatment.

Staff interviews indicate inmate victims of sexual abuse receive timely and unimpeded access to emergency medical treatment and crisis intervention services. Typically, this occurs immediately. The nature and scope of these services are determined according to the Medical / Mental Health provider's professional judgment. Victims of sexual abuse are offered timely information about access to emergency contraception and sexually transmitted infection prophylaxis.

Operating Procedure 720.7 states offender victims of sexual abuse while incarcerated shall be offered tests for sexually transmitted infections as medically appropriate.

Operating Procedure 730.2 states all prisons shall attempt to conduct a mental health evaluation of all known offender-on-offender abusers within 60 days of learning of such abuse history and offer treatment deemed appropriate by mental health practitioners.

During the pre-audit, the auditor was provided with a sample of medical/mental health progress notes from an inmate that alleged sexual victimization.

Staff interviews indicate evaluation and treatment of victims include life safety measures to make sure the inmate is stable. Clothing would be processed as evidence. Medical and mental health services are consistent with community level care.

§115.86 – Sexual abuse incident reviews

- Exceeds Standard (substantially exceeds requirement of standard)

Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

Operating Procedure 038.1 states a sexual abuse incident review shall be conducted at the conclusion of every sexual abuse investigation including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded. A sexual harassment incident review shall be conducted at the conclusion of every investigation into an allegation of sexual harassment where the allegation has been determined to be substantiated. The Review Team shall consist of at least one Administrative Duty Officer who will solicit input from line supervisors, investigators, and medical or mental health practitioners for all sexual abuse and harassment incident reviews. The review should begin as soon as practical after the incident and a Report of Incident Review 038_F3 submitted within 7 working days of the initial Incident Report.

In the past 12 months, there has been one criminal and/or administrative investigation of alleged sexual abuse completed at the facility, excluding only “unfounded” incidents.

In the past 12 months, there has been one criminal and/or administrative investigation of alleged sexual abuse completed at the facility that was followed by a sexual abuse incident review within 30 days, excluding only “unfounded” incidents.

Operating Procedure 038.1 states the Review Team will determine what can be done to limit the occurrence or reduce the severity of future incidents; consider whether there was a proper application of current procedure, practice, staffing and/or training; or whether there is a need to revise the current procedure, practice, staffing, and/or training. The Review Team will also develop an Action Plan to limit or mitigate similar future incidents. The unit shall implement the recommendations for improvement, or shall document the reasons for not doing so. The reports are submitted to the Regional Office for review by the Regional Administrator and/or Regional Operations Chief. A copy of all Report of Incident Reviews for sexual abuse and sexual harassment shall be submitted to the Regional PREA Analyst as provided in Operating Procedure 038.3, Prison Rape Elimination Act (PREA).

During the pre-audit, the auditor was provided with documentation from a Sexual Abuse Incident Review. The review included recommendations that were approved and implemented by the Warden. The review was forwarded to the Regional PREA Analyst.

Staff interviews indicate the facility has a sexual abuse incident review team. The team consists of the Warden, Assistant Warden, Major, PREA Compliance Manager, Medical and Mental Health and any other staff deemed appropriate. The sexual abuse incident review team looks for any deficiencies. If any are discovered, action would be taken

including changing procedures, if appropriate. The review team considers whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; gang affiliation; and/or other group dynamics. The review team; examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse, assess the adequacy of staffing levels in that area during different shifts, and assess whether monitoring technology should be deployed or augmented to supplement supervision by staff.

§115.87 – Data Collection

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Operating Procedure 038.3 states the DOC shall collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions. The agency shall aggregate the incident-based sexual abuse data at least annually. The incident-based data collected shall include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice. The agency shall maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. The agency also shall obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its offenders. Upon request, the DOC shall provide all such data from the previous calendar year to the Department of Justice no later than June 30.

The auditor was provided with the data collected from 2012, 2013, and 2014. The data collection instrument was the Bureau of Justice Statistics Survey on Sexual Violence (SSV) Form. The instrument included definitions prohibited sexual misconduct.

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

Operating Procedure 038.3 states the DOC shall review data collected and aggregated pursuant to this operation procedure in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including by:

- a) Identifying problem areas;
- b) Taking corrective action on an ongoing basis; and
- c) Preparing an annual report of its findings and corrective actions for each facility, as well as the agency as a whole.

Such report shall include a comparison of the current year's data and corrective actions with those from prior years and shall provide an assessment of the DOC's progress in addressing sexual abuse. The DOC report shall be approved by the Director and made readily available to the public through its website. The DOC may redact specific material from the reports when publication would present a clear and specific threat to the safety and security of a facility, but must indicate the nature of the material redacted.

Staff interviews indicate after an assault has occurred, there is a Critical Incident Debriefing and an After Action Report. The Regional Operations Chief, the Warden, ranking correctional officers, and the Chief of Correctional Operations meet and discuss the incident and what could have been done to prevent the incident from happening again. The report is sent to the Director and the Chief of Correctional Operations and the two other Regional Operations Chiefs as a "lessons learned" document. In addition, the DOC aggregates data regarding all assaults and looks for trends across the DOC and down to specific institutions. This information is shared with the Director, Chief of Correctional Operations, and the Regional Administrators. In addition, the PREA staff review all incidents involving sexual assaults or sexual harassment. If the report indicates a need to change policy or procedure, the appropriate change is made and communicated to all applicable DOC employees. All reports come to the Director for review and his approval before they are sent out publicly. Once approved, the reports are posted on the agency's website (<http://vadoc.virginia.gov/about/facts/prea/2014-prea-annual-report.pdf>). All personal identifiers are redacted.

§§115.89 – Data Storage, Publication, and Destruction

Before making aggregated sexual abuse data publicly available, the DOC shall remove all personal identifiers.

Information is gathered from investigations. Trends are identified from the data collected. The agency implements corrective action when warranted. Changes may be implemented at both the state and institution level.
