AUDIT FINDINGS

NARRATIVE:

The site visit for PREA audit of the Sussex I State Prison was conducted on July 15-17, 2014 to determine compliance with the Prison Rape Elimination Act standards finalized August 2012. Before the audit, the auditor interviewed the Agency Director, Harold Clarke, and the state PREA Coordinator, Elizabeth Thornton, at the Virginia Department of Corrections headquarters in Richmond, Virginia. During the audit, the auditor toured the facilities and conducted formal staff and inmate interviews. The auditor interviewed 10 inmates (10 random inmates from all of the housing units). One of the inmates was a youthful offender and one of the inmates had reported sexual abuse or victimization during this report period. There were no inmates who are disabled or limited English proficient, nor any transgender inmates. In addition, the auditor questioned 18 staff (8 specialized staff and 10 random Correctional Officers), about PREA training, how to report, to whom to report, filing reports, available interventions, conducting interviews, evidence collection, follow up, and monitoring retaliation. Random Correctional Officers were selected from each facility and each shift. Specialized staff interviewed included the Warden, PREA compliance manager/Investigator, Training Captain, Human Resource Manager, Health Services Administrator/Contract Staff, Director of Mental Health/Contract Staff, Records Office Manager/Bed Assignments, and Unit Manager.

An entrance meeting was held with the following persons in attendance: Warden Keith Davis; Captain V. Bullock; Unit 2 Manager T. Foreman; Operations Manager J. Adams; Lt. Robert High, PREA Compliance Manager/Investigator; Executive Secretary M. Parham; Assistant Warden J. Boone and Lawanda Long, Regional PREA Analyst. Also joining us during the day was Agency PREA Coordinator Elizabeth Thornton and Regional Director Wendy Hobbs.

On the first day of the audit, there were 1082 male inmates, of which 8 inmates are between 17-18 years old, and 8 inmates are on death row. Following the entrance meeting, I toured the facility from 9:10 a.m. to 1:45 P.M. In the last calendar year, there were twenty-one (21) sexual assault/harassment allegation cases. Three (3) were determined to be unfounded and eighteen (18) were found to be unsubstantiated.

DESCRIPTION OF FACILITY CHARACTERISTICS:
Sussex One State Prison opened on May 20, 1998. Located in the Eastern Region of Virginia, 30 miles outside of Richmond, Sussex One shares property with another facility, Sussex II. The facility houses 1,125 level five maximum security inmates including a death row population and youthful offenders. The facility has eight buildings including two housing units, as support building, an administration building and four guard towers. All cells are designed with a push call button inside the cell that contacts the officer control station. The support building also includes kitchen and dining rooms, visitation rooms, gymnasium, medical unit, commissary, school and vocational programs. In between the support building and housing units is a spacious recreation area.

The mission statement for Sussex I read: Sussex I state Prison will advance the Virginia Department of Corrections mission. We will enhance the quality of life in the Commonwealth by improving public safety. We will provide men sentenced to our custody and care with professional supervision and control, early assessment and identification, effective programs and re-entry services that are evidence based. We will create a safe healing environment which fosters development, growth and innovation which lights the way and adheres to sound correctional principles, fiscal responsibility and constitutional standards.

The auditor found the staff and inmates to be very well aware of PREA. The staff was very knowledgeable about their responsibilities to ensure a safe facility. They were aware of reporting responsibilities, preservation of evidence, as well as dealing with victims of sexual assault and/or sexual harassment. The staff has all had extensive training on how to identify signs of sexual assault/harassment and how to deal and treat victims of sexual assault and or sexual harassment.

**SUMMARY OF AUDIT FINDINGS:**

When the on-site audit was completed, an exit meeting was held. While I could not give the facility a final finding, as there were some issues needing further documentation and clarification, I did discuss areas where they had questions as to the facility’s and the department’s compliance with specific standards. I gave an overview of the audit and thanked the Sussex One State Prison staff for their hard work and commitment to the Prison Rape Elimination Act.

| Number of standards exceeded: | 5 |
| Number of standards met:     | 35 |
| Number of standards not met: | 0 |
| Not Applicable:              | 3 |
§115.11 - Zero tolerance of sexual abuse and sexual harassment; PREA coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The Agency exceeds the standard with their policies and practice. Operating Procedures 038.3 and 130.1 clearly meet this standard. The facility PREA Plan exceeds zero tolerance as required by the standard. In addition to the agency PREA Coordinator, and facility PREA Compliance Manager, they have Regional PREA Compliance Analyst’s to ensure they are meeting all the PREA standards.

§115.12 - Contracting with other entities for the confinement of inmates

§115.13 – Supervision and Monitoring

- Exceeds Standard (substantially exceeds requirement of standard)

- Does Not Meet Standard (requires corrective action)

Warden Keith Davis ensures that he completes an annual review of the post audits and staffing plan. A new post audit was completed and regional review and approval was granted in October 2013. The challenge of ensuring that all posts are filled requires the facility to rely on overtime. The agency has implemented a retention review study and is following through on recommendations to address the issue of turnover. The use of learning teams and dialogue among staff will be increased to a weekly schedule. To address the number of posts that are not filled due to uncertified officers, additional training requirements, vacancies/turnover impact, military leave, short-term disability and other special circumstances, the agency closes posts that have minimal direct offender observation such as support secondary control and building entry.
They have adequate resources to meet their needs and effectively administer procedures and programs related to PREA standards compliance. They currently have 188 security cameras located in the facility. Four cells (two in medical and two in Special Housing Unit) have cameras in them. 12 DVR’s maintain recordings a minimum of 30 days. An additional 32 cameras would be useful to put in the blind spots at the end of the hallways in each housing unit. In addition, it was suggested that a camera be placed in the trash room off the main kitchen area. Operating procedures 401.1, 401.2, and 401.3 support this standard. Documentation of unannounced rounds that cover all shifts was reviewed.

☐ Does Not Meet Standard (requires corrective action)

Youthful inmates at this facility are kept in a separate housing unit in which they do not have sight, sound or physical contact with any adult inmate. All activities are conducted in their housing unit including school, visitation and recreational activities. Operating procedures 038.3 and 425.4 cover the aspects of this standard.

§115.15 – Limits to Cross-Gender Viewing and Searches

This is also noted in the log book and has been added to the post orders. This was documented during interviews with staff and inmates, as well as recorded in housing unit log books. Privacy notices are posted in each housing unit. Operating procedures cover all aspects for this standard including 445.1, 401.2, 801.1, 401.1, 720.2, 350.2 and 160.2.
