## Physical Plant

### Number of buildings:

Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.

### Number of inmate housing units:

Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.

Audit Findings

Audit Narrative (including Audit Methodology)

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

On August 31, 2020, the Pre-Audit Notification was sent to St. Brides Correctional Center (SBCC) to be posted throughout the facility. On September 1, 2020, I received pictures of the PREA notices posted on bulletin boards throughout the center where offenders, staff and visitors could view the notices. The notifications will remain posted at least six weeks after the onsite audit. On September 17, 2020, I received electronics files from SBCC which included the Pre-Audit Questionnaire, operating procedures, organizational charts, and other PREA related information. I received two PREA complaints from offenders prior to the onsite visit. The PREA Audit Schedule was sent to the prison on September 17, 2020. On October 5, 2020, staff rosters and offender bed logs were provided and selection of offenders and staff was made before the onsite visit. The onsite audit took place October 13, 2020 through October 14, 2020.

The audit team, Phyllis Baskerville and I arrived at St. Brides Correctional Center on October 13, 2020 at 7:45 AM. We met with Warden Dara Watson, Brian Schuyler, Regional PREA Analyst, and key center staff in a training room in the administration building. Warden Watson introduced her staff to the audit team. We introduced ourselves and shared the audit schedule, expectations and purpose for the audit. After the entry meeting, I began a tour of the Center along with Matricea Godfrey, PREA Compliance Manager, and other key members of the staff. Auditor Phyllis Baskerville began interviewing random offenders and random security staff. There were 958 inmates assigned to the center on the first day of the audit.

During the tour, I saw the PREA Notification letters posted throughout the prison. PREA posters in English and Spanish were posted in all the housing areas. PREA hot line numbers and instructions were posted on the walls in the dayrooms immediately near the telephones.

I spoke with offenders in all housing, program and work areas. The inmates communicated freely, and demonstrated knowledge of PREA requirements, specifically how to make notifications if needed. All areas appeared to be PREA compliant. However, after interviewing the two offenders who wrote me prior to the onsite visit, two complaints concerning inmates’ privacy when showering, and using the toilets were valid in Buildings 310 and 320. Complaint one: PTZ Cameras that were in the middle of the bed areas of Buildings 310 and 320 were able to see in the restroom areas of the opposite building. This was possible by zooming into the rest room through the windows of the control room. We were able to see an offender on the nearest toilet to the control room. This was true in both buildings. This problem was corrected the same day by raising the height of the rest room saloon style doors. Complaint two: One inmate with whom I spoke received an offense code 137A (Lewd or obscene acts directed toward or in the presence of another) The reporting officer claimed to see the offender from the officer station in the day room. The officer had more than a passing view of the shower area. To solve this problem, the height of the door to the shower and toilet area was also raised to shoulder height. Additionally, the offense code 137A conviction was expunged from the offender’s record. There are cameras throughout the prison. Control room officers are monitoring cameras throughout the course of a work day. Senior security staff have access to security cameras and video footage throughout the facility.

We spoke with many members of the staff throughout the tour of the prison. Staff were aware that the PREA audit team would be reviewing the prison practices and operations as related to PREA. They readily answered the auditor’s questions and expressed knowledge of PREA policies and procedures.
Announcements were made and logged prior to female staff entering the male housing areas. Supervisors regularly document when they make unannounced rounds and log them in the PREA log books.

Upon completion of the tour, we went to our assigned work areas. We began interviewing staff, offenders, and reviewing audit files and documentation. Thirty-three inmates of various ages and ethnic backgrounds were interviewed. Of those, 14 were targeted inmates and the other 19 were randomly chosen from the inmate population housing assignments to ensure representation from every building. The targeted inmates interviewed reflected the following: one-physical-mobility disability, one-vision (blind in one eye), one-hearing impaired, one -cognitive disability, two-Limited English proficiency, two-inmates who identify as gay or bisexual, three-reported sexual abuse and three-reported sexual victimization during risk screening. Officer Lopez is one of two staff designated as Spanish translators for St. Brides CC. All targeted inmates stated that they received the PREA orientation in a manner in which they understood.

All inmates demonstrated a solid understanding of the PREA program and their rights regarding preventing sexual abuse or sexual harassment. Additionally, most inmates indicated that they felt safe from sexual abuse or sexual harassment at St. Brides CC. Supporting documentation of a signed Preventing Sexual Abuse and Assault Training Acknowledgement form was supplied for all inmates interviewed.

Twelve random staff and nineteen specialized staff were interviewed. Random staff interviewed represented all housing units, plus day and night shifts. The specialized staff included the Director, Agency Contract Administrator, Investigative staff, Warden, Intake staff, Higher-Level Facility staff, PREA Compliance Manager, PREA Coordinator, Designated staff member charged with monitoring retaliation, Volunteers, Contractor, Medical and Mental Health staff, Security and Non-Security Staff who have acted as first responders, Staff who supervise inmates in segregation housing, Staff who perform screening for risk of victimization and abusiveness, Incident Review Team, and Human Resources Staff. All staff had received PREA training or refresher within the past 12 months. Staff were aware of PREA requirements and their duty to act immediately upon any PREA complaint or suspected violation. The auditor reviewed a sampling of employee personnel and training records. Auditor looked for performance of criminal record background checks, consideration of prior incidents of sexual harassment when determining whether to hire or to promote anyone, or to enlist the services of any contractor who may have contact with inmates, and whether the center imposed upon employees a continuing affirmative duty to disclose any previous misconduct. The files reviewed were in compliance of standard [115.17]. In order to determine compliance with each standard, the auditor relied upon information in the DOPs, written memoranda, posts log entries, interviews of offenders and staff, and observations during the tour of the facility.

After concluding the onsite portion of the audit, the audit team held an exit meeting with Warden Watson, Regional PREA Coordinator, PREA Compliance Manager, and other key members of the executive team. Also, attending the meeting by conference call were Eastern Regional Operations Chief Gregory Holloway, Eastern Regional Administer Marcus Elam and Statewide PREA Coordinator Rose Durbin. We expressed our appreciation for the hospitality, cooperation, and timely assistance with inmate and staff interviews as well as unrestricted access to documents and files that were needed. The center was well run with experienced staff and good security practices.

We stated that the onsite portion of the audit went well. However; the team must complete the post-audit section of the audit in order to determine the final outcome of the audit. The audit report will be completed within 45 days of the onsite audit.

Facility Characteristics
The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

St. Brides Correctional Center (SBCC) is a state prison in the Virginia Department of Corrections system. This facility houses males and transgender males. The security of the facility is considered by VA DOC to be a level 2.

This security level requires that inmates cannot have escape history within the past 5 years. A single life sentence must have reached their Parole Eligibility Date and there cannot have been any disruptive behavior for the past 24 months. This correctional center is an Intensive re-entry site. During the onsite visit the inmate count was 958. There are a total of six buildings with two sides each. Each side is barracks style bunking housing 98 inmates. An officer is stationed in an enclosed secure observation control room approximately 6 feet from the floor between the two sides which provides a visual of both living areas.

Another officer walks the floor of the two sides to have interaction with the inmates and make closer observations. This prison design allows for direct supervision which is a useful tool to prevent and monitor potential sexual assault. The RHU has a maximum capacity of 24 and there are 6 medical infirmary beds when needed. Unit managers and correctional counselors have offices within the wings of the living units. This allows them immediate access to the units and to provide access to the inmate population within their unit. This is an intensive reentry site with a strong emphasis on programs to include education and vocational training.
Summary of Audit Findings

The summary should include the number and list of standards exceeded, number of standards met, and number and list of standards not met.

**Auditor Note:** No standard should be found to be “Not Applicable” or “NA”. A compliance determination must be made for each standard.

In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:

a. Generally accepted detention and correctional practices
b. Any judicial findings of inadequacy
c. Any findings of inadequacy from Federal investigative agencies
d. Any findings of inadequacy from internal or external oversight bodies
e. All components of the facility’s physical plant (including “blind-spots” or areas where staff or offenders may be isolated)

   - The resources the facility has available to commit to ensure adherence to the staffing plan
   - If the review indicates that the facility is not staffing to plan or staffing to post audits, the facility must provide a comprehensive written explanation as to why they are not able to staff to post audits and possible solutions to increase facility staffing levels
   - These comprehensive written explanations shall be provided to the Regional Operations Chief for review and forwarded to the Regional PREA Analyst

Since August 20, 2012, the average daily number of offenders was 1150. Since August 20, 2012, the average daily number of offenders on which the staffing plan was predicated was 1214.
Operating Procedure 401.3 states ADO’s conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Unannounced rounds should be made intermittently during the month.

Operating Procedure 401.1 states Post Orders shall require that Lieutenants and above conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment.

a. Supervisors are prohibited from notifying staff of unannounced rounds. Unannounced intermediate and upper-level supervisor rounds occur on all two shifts and are completely random. They are logged in the log books located in the control room of each housing unit.

During the pre-audit, the auditor reviewed a sample of unannounced rounds by supervisors. The documentation of unannounced rounds showed they have occurred on all the shifts. Staff interviews indicate the facility has a staffing plan they review annually in order to determine the minimum number of required staff. Video monitoring is a part of this plan. The Warden, Assistant Warden, and Major all have a copy of the staffing plan. All required staffing plan guidelines under 115.13 are a part of the facility’s staffing plan. The Warden checks for compliance with the staffing plan by reviewing the daily duty roster and observing these areas to make sure staff are assigned there. The Warden can also review the staffing report which is a part of the supervisor’s daily shift briefing report. In the event a staff member calls in, another staff member would be drafted from the overtime list to fill this position. The staffing plan is developed at the facility level. Departmental security supervisors audit the facility and review the facility’s staffing plan. Recommendations are forwarded to the PREA Analyst and PREA Coordinator for their review. Staffing plans are reviewed annually, or whenever the need is identified. Standard 115.13 is in compliance based upon review of operating procedures, file documents, and interviews with relevant staff.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)
☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operation Procedure 445.1 prohibits cross-gender strip or cross-gender visual body cavity searches absent exigent circumstances. Policy requires all cross-gender strip-searches and cross-gender visual body cavity searches be documented.

In the past 12 months, there have no cross-gender strip or cross-gender body cavity searches of offenders. Female offenders are not housed at SBCC.

Operating Procedure 401.2 states officers of the opposite gender should be allowed to supervise offender housing areas, with appropriate physical modifications made to toilet and shower areas to provide a reasonable degree of offender privacy. Facility procedures and practices shall enable offenders to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Staff of the opposite gender shall announce their presence when entering an offender housing unit. These announcements shall be documented in the log book.

During the audit, the auditor observed female staff announcing their presence before entering the housing areas. Operating Procedure 350.2 states all new Corrections Officers (and any other offender care workers at Detention/Diversion Centers) receive at least 120 hours of training (in addition to orientation) during their first year of employment. This training includes cross gender frisk searches and searches of transgender and intersex offenders in a professional and respectful manner and in the least intrusive manner possible consistent with security needs.

A review of the pre-audit questionnaire indicates 100% of all security staff have received training on conducting cross-gender pat-down searches and searches of transgender and intersex offenders in a professional and respectful manner, consistent with security needs. Staff interviews indicate female security staff announce their presence at the beginning of their shift. In addition, an announcement is made anytime non-security female staff enter the housing unit. During the audit, the auditor observed female staff announcing their presence before entering the housing units.

A complaint from an inmate who wrote me prior to the onsite visit alleged that security staff were using the PTZ Cameras in the middle of the bed area in buildings 310 and 320 to view offenders while they were in the showers and toilet areas. I reviewed live camera footage and saw that the PTZ camera in the bed area of Building 310 could look into the rest room and observe offenders using the toilet in Building 320. The camera could observe this area by zooming in through the windows of the control room. This problem was corrected by installing higher/taller doors allowing only view of the offender’s shoulder and above.

I interviewed the inmate who wrote me about a charge (137A Lewd or obscene acts directed toward or in the presence of another) he received while he was in the shower. He was written up by an officer who allegedly observed this behavior from the officer station in the day room area. This auditor sat at the officer station while a staff person entered the shower area. There was a gap in the saloon doors of the shower area...
which allowed staff to view offenders, in violation of their privacy. The facility increased the height of the saloon door which allowed staff to only see above an offender’s head or shoulder in the shower area. The charge that the offender received was subsequently expunged at my request.

**Auditor Overall Compliance Determination**

☐ **Exceeds Standard (Substantially exceeds requirement of standards)**
☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 102.2 states the DOC shall not hire or promote anyone who may have contact with offenders, and shall not enlist services of any contractor who may have contact with offenders who:

a. Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997).

b. Has been civilly or administratively adjudicated to have engaged or has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, over or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse.

The DOC shall consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with offenders. Before hiring new employees, who may have contact with offenders, the DOC shall:

a. Perform a criminal background records check

b. Consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

In the past 12 months, there have been 98 persons hired who may have contact with offenders who have had criminal background records checks. This equates to 100% of all persons hired within the last 12 months. DOC shall perform a criminal background records check before enlisting the services of any contractor who may have contact with offenders. In the past 12 months, the number of contracts for services where criminal background record checks were conducted on all staff covered in the contract who might have contact with offenders were 13. This equates to 100% of all contracts.

The DOC shall conduct criminal background records checks at least every 5 years of current employees and contractors. A criminal background record check will be conducted annually for sensitive specialist assignments. The Human Resources Officer for each organizational unit shall ensure criminal background record checks are conducted and documented as required. The Human Resources Officer shall document in the Access Employee Database that the criminal records check (VCIN) was conducted.

Staff interviews indicate criminal background checks are conducted on both security staff as well as contractors and volunteers. Past incidents of sexual abuse and sexual harassment are considered when determining whether or not to hire or promote an employee. All applicants are checked using VCIN as well as NCIC. PREA questions are asked as a part of the application as well as during any promotional process. The facility imposes upon employees a continuing affirmative duty to disclose any such previous misconduct. Whenever a former employee applies for work at another institution, the facility would provide
information on substantiated allegations of sexual abuse and sexual harassment involving the former employee.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

SBCC conducts administrative investigations of sexual abuse and harassment allegations. If a sexual abuse and harassment allegation is referred for criminal investigation, it is handled by the VADOC Special Investigations Unit (SIU). The government policies to ensure proper evidence protocol, forensic services if needed, and victim advocacy services are: Operating Procedure 030.4(Special Investigative Unit), Operating Procedure 038.3 (Victim Advocate/Emotional Support), Operating Procedure 720.7 (Emergency Medical Equipment and Care), and Operating Procedure 730.2 (Mental Health Services: Screening, Assessment and Classification). The agency and facility follow the uniform evidence protocol, adapted from and or based on the most recent edition of the U.S. Department of Justice Office on Violence against Women publication. SBCC and the VADOC also use various sexual assault checklists depending on the persons or status of persons allegedly involved in the allegation (Offender/Offender or Staff/Offender). Correctional and Health Services staff interviewed was knowledgeable of the procedures required to secure and obtain usable evidence when sexual abuse is alleged. There were no forensic exams required for an alleged sexual assault victim during the audit period. If a forensic exam is needed, SBCC offenders are transported to Chesapeake Forensic Specialists in Chesapeake, Virginia. Contracted advocacy services are provided by Virginia Sexual and Domestic Violence Action Alliance. The auditor reviewed the current agreement. There are also trained volunteer advocates on call based on a published schedule for 2020. All victim’s services are provided at no cost to the offender.

This auditor finds SBCC in compliance with this standard based on interviews with staff and offenders, review of relevant policies and procedures of the VADOC.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 030.4 states the SIU is responsible for conducting administrative and/or criminal investigations into allegations of sexual abuse or sexual harassment in DOC facilities as outlined in this procedure. The SIU is responsible for conducting investigations on all incidents of sexual abuse and sexual harassment. SIU investigators will receive special training in sexual abuse investigations before conducting PREA investigations.

In addition to the general PREA training provided to all employees, investigators shall receive specialize training in conducting sexual abuse investigations in confinement settings. Specialty training shall include the following:

i. Techniques for interviewing sexual abuse victims

ii. Proper use of Miranda and Garrity warnings

iii. Sexual abuse evidence collection in confinement settings

iv. Criteria and evidence required to substantiate a case for administrative action or prosecution referral
During the past 12 months, there have been 16 allegations of sexual abuse and sexual harassment that were received.

During the past 12 months, there have been 16 allegations resulting in an administrative investigation.

During the past 12 months, there have been no (0) allegations referred for criminal investigation.

Operating Procedure 038.3 states an administrative or criminal investigation conducted in accordance with PREA standards shall be completed for all allegations of sexual abuse and sexual harassment. Initial investigations may be conducted by the facility investigator. Unless it is quickly and definitively determined that the allegation is unfounded, allegations of sexual abuse or sexual harassment shall be referred for investigation to the DOC Special Investigations Unit (SIU). The facility shall document all such referrals. The SIU shall conduct investigations into criminal behavior, procedural or administrative violations, or employee misconduct affecting the operations of the DOC.

The Chief of Special Investigations Unit or a designee shall review the nature of the allegations received to determine if an investigation is warranted. Upon notification of an allegation of sexual abuse or misconduct, investigative staff shall follow Operating Procedure 030.4, Special Investigations Unit. During the pre-audit, the auditor located the policy stating referrals of allegations of sexual abuse or sexual harassment for criminal investigation on the agency website (https://vadoc.virginia.gov/about/procedures/documents/030/038-3.pdf).

Staff interviews indicate the DOC has a Special Investigation Unit (SIU) with law enforcement authority to investigate crimes in facilities within the DOC. Institutional Investigators handle administrative or criminal investigations at the facility. When an allegation is received, the warden of the facility, the institutional investigator, and the PREA Analyst are notified. If the allegation is criminal in nature, SIU would also be notified. Staff would ensure the victim is protected and all protocols are instituted. Any allegation received from another agency is processed the same way. If an allegation is received that happened at another agency, the DOC reports these allegations to the respective authority. Review of 12 of the 16 investigative files showed proper investigative procedures and proper documentation to support investigations. Review of Operating Procedures, review of case files, interviews of staff and offenders verify compliance of this standard.

**Auditor Overall Compliance Determination**

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In accordance with Operating Procedure 730.2, Mental Health Services: Screening, Assessment, and Classification, Operating Procedure 810.1 Offender Reception & Classification, and Operating Procedure 810.2, Transferred Offender Receiving and Orientation, offenders will be screened for potential vulnerability to sexual assault, or tendencies to act out with sexually aggressive behavior at intake, transfer and as needed while incarcerated.

Upon receiving an allegation that an offender was sexually abused while confined at another facility, the head of the facility that received the allegation shall notify the head of facility or appropriate office of the agency where the alleged abuse occurred. Such notification shall be provided as soon as possible, but no later than 72 hours after receiving the allegation.

Operating Procedure 038.3 says the DOC shall use information from the offender risk screening to inform housing, bed, work, education, and program assignments with the goal of keeping separate those offenders at high risk of being sexually victimized from those at high risk of being sexually abusive. The DOC shall make individualized determinations about how to ensure the safety of each offender. Specialized decisions to provide specific individual accommodations to transgender or intersex offenders and offenders diagnosed by Mental Health staff with Gender Dysphoria shall be made by the Gender Dysphoria Committee. In deciding whether to assign a transgender or intersex offender to a facility for male or female offenders, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the offender’s health and safety, and whether the placement would present management or security problems.

Staff interviews indicate medical and mental health staff are made aware of any offenders who screen as victims as well as those screening as being abusive. Medical and mental health staff will conduct follow-up evaluations. Housing is determined based on the screenings with the goal of housing these two types of offenders separate from one another. These bunk assignments will typically be assigned closer to the control rooms for more direct observation by security staff. Transgender or intersex offenders’ views with respect to his or her own safety are given serious consideration in placement and programming assignments. Interviews of offenders did not raise any concerns about inappropriate placement which caused offenders to fearful of sexual assaults or aggressive sexual behavior.
I find SBCC to be in compliance with standard 115.42 for the above stated reasons.

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 830.5 states offenders identified as HRSV shall not be placed in Special Housing without their consent unless an assessment of all available alternatives has been made, and it has been determined by the QMHP, in consultation with the Shift Commander and Regional PREA Analyst, that there is no available alternative means of separation from likely abusers. If the facility cannot conduct an assessment immediately, the Shift Commander may place the offender in Special Housing on General Detention for no more than 24-hours while completing the assessment.

The facility must clearly document the basis for the facility’s concern for the offender’s safety and the reason why no alternative means of separation can be arranged. Involuntary assignment to Segregation or a Restrictive Housing Unit shall only be made until an alternative means of separation can be arranged. This assignment to Segregation/Restrictive Housing Unit shall not ordinarily exceed a period of 30 days.

The pre-audit questionnaire indicates that, the facility has not placed any offenders at risk of sexual victimization in involuntary segregated housing. Staff interviews indicate that they would not place offenders at high risk for sexual victimization or who have alleged sexual abuse in involuntary segregated housing in lieu of other housing areas, unless an assessment has determined there are no available alternative means
of separation from potential abusers. If an offender was placed in involuntary segregated housing for this reason, they would only be housed there until alternative means of separation from likely abusers can be arranged. Staff indicated they have never had to use involuntary segregated housing for this reason.

There were no inmates at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months for one to 24 hours awaiting completion of assessment.

There were no inmates at risk of sexual victimization who were assigned to involuntary segregated housing in the past 12 months for longer than 30 days while awaiting alternative placement.

Standard 115.43 is in compliance based upon operating procedures, proper documentation staff and inmate interviews, and observations during the tour of the facility.

During the pre-audit, the auditor was provided with snap shot of the agency’s website, which states; “If you or someone you know were sexually abused or sexually harassed while in custody or under the supervision of the Virginia Department of Corrections, you may complete and mail in the Third Party Reporting Form, email us, or call the Confidential Reporting Hotline to initiate a review.

The VADOC will take appropriate steps to protect staff, contractors, volunteers, offenders and probationers from retaliation for reporting occurrences of sexual abuse or sexual harassment.” Third party reporting forms are available on the agency website in both English and Spanish. 115.54 is in compliance based upon operating procedures, interviews of staff and offenders and information on the DOC website.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
Operating Procedure 038.3 states all staff offenders who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations shall be protected from retaliation by other offenders or staff. Allegations of retaliation shall be reported through the same methods as available for reporting sexual abuse or sexual harassment. For at least 90 days following a report of sexual abuse, the DOC shall monitor the conduct and treatment of offenders or staff who reported the sexual abuse and of offenders who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by offenders or staff, and shall act promptly to remedy any such retaliation. Items to be monitored include any offender disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff.

Operating Procedure 038.3, the DOC shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need. The conduct or treatment of offenders or staff who reported sexual abuse and of offenders who were reported to have suffered sexual abuse to see if there are any changes that may suggest possible retaliation by offenders or staff will be monitored for a minimum of 90 days on all allegations. The facility designated the Operations Manager as the staff member charged with monitoring retaliation.

During the pre-audit, the auditor was provided with copies of the PREA Compliance Managers log book that she uses to make notes documenting her retaliation monitoring. In the past 12 months, there have not been any incidents of retaliation that have occurred.

Staff interviews indicate the PREA Compliance Manager monitors retaliation for up to 90 days. Retaliation may be monitored beyond 90 days, if warranted. If a staff member was involved, the staff member would be separated from the offender and may receive disciplinary action commensurate with the type of behavior taken. If an offender retaliates against another offender, they would be kept separate from one another. Other options to protect against retaliation include protective custody and/or transfer to another facility.

SBCC is in compliance with this standard based upon evidence from relevant operating procedures, documentations from the file folders, and interview from staff and offenders.

**Standard 115.68: Post-allegation protective custody**

**All Yes/No Questions Must Be Answered by the Auditor to Complete the Report**

115.68 (a)

- Is any and all use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse subject to the requirements of § 115.43? ☒ Yes ☐ No

**Auditor Overall Compliance Determination**

☐ **Exceeds Standard** *(Substantially exceeds requirement of standards)*

☒ **Meets Standard** *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ **Does Not Meet Standard** *(Requires Corrective Action)*
Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 830.5 states, for an offender identified as HRSV or an alleged victim of sexual abuse who has been assigned to Special Housing without their consent, Mental Health staff shall advise the ICA on whether the offender can be released to General Population or whether they must be assigned to Segregation and/or transferred to the DOC Protective Custody Unit. Involuntary assignment to Segregation shall only be made until an alternative means of separation from likely abusers can be arranged. The ICA must clearly document the basis for the institution’s concern for the offender’s safety and the reason why no alternative means can be arranged. This assignment shall not ordinarily exceed a period of 30 days.

During the past 12 months, there has been no offender who alleged to have suffered sexual abuse who were held in involuntary segregated housing for one to 24 hours awaiting completion of an assessment. During the past 12 months, there has been no offender who alleged to have suffered sexual abuse who was assigned to involuntary segregated housing for longer than 30 days while awaiting an alternative assessment. During the pre-audit, the auditor was provided with documentation showing a statement for the basis for facility’s concern for the offender’s safety, and the reason why alternative means of separation could not be arranged.

If an involuntary segregated housing assignment is made, the facility affords each such offender a review every 30 days to determine whether there is a continuing need for separation from the general population.

Staff interviews confirm the agency’s policy prohibiting placing offenders at high risk for sexual victimization or who have alleged sexual abuse in involuntary segregated housing in lieu of other housing areas, unless an assessment has determined there are no available alternative means of separation from likely abusers. If an offender were to be held in involuntary segregated housing for this reason, they would be moved as soon as less restrictive housing became available. Standard 115.68 is satisfied based upon established operating procedures, review of relevant documents, staff and offender interviews.

Operating Procedure 030.4 states upon completion of the investigation, SIU should inform the Facility Unit Head as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded.

Operating Procedure 038.3 states following an investigation into an offender’s allegation that he or she suffered sexual abuse in a DOC facility, the investigator in charge shall inform the offender as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. If the DOC did not conduct the investigation, the institutional investigator shall request the relevant information from the investigative agency in order to inform the offender. Following an offender’s allegation that a staff member has committed sexual abuse against the offender, the DOC shall subsequently inform the offender whenever:

a. The DOC has determined that the allegation is unfounded;

b. The DOC has determined that the allegation is unsubstantiated;

c. The staff member is no longer posted within the offender’s unit;

d. The staff member is no longer employed at the facility;

e. The DOC learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or

f. The DOC learns that the staff member has been convicted on a charge related to sexual abuse within the facility. During the pre-audit, the auditor was provided with a sample of an alleged sexual abuse investigation. At the conclusion of the investigation, the alleged offender victim was notified, in writing, of the results of the investigation.

Following an offender’s allegation that he or she has been sexually abused by another offender, the agency shall subsequently inform the alleged victim whenever:

c. The DOC learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility; or
d. The DOC learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility.

All such notifications or attempted notifications shall be documented and sent to the offender in the same manner as legal mail. DOC’s obligation to report under this standard shall terminate if the offender is released from custody. During the pre-audit, the auditor found that there were eight investigations were completed by the agency/facility and eight notifications were given to offenders pursuant to this standard.

During the past 12 months, there have not been any investigations of alleged offender sexual abuse in the facility that were completed by an outside agency.

During the past 12 months, there have not been any inmates alleging sexual abuse in the facility who were notified verbally or in writing of the results of the investigation.

In the past 12 months, the number of notifications to inmates that were provided pursuant to this Standard is 16. Of those notifications made in the past 12 months, the number that were documented is 15.

Staff interviews indicate an offender who makes an allegation of sexual abuse when the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation. The offender notification letters are sent as legal mail and are documented through the offender's signature of receipt.

Standard 115.73 is satisfied by operating procedures, review of relevant documentation and interviews with staff and offenders.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 135.1 states sexual misconduct will be treated as a Group III offense subject to disciplinary sanctions up to and including termination under Operating Procedure 135.1 Standards of Conduct. Termination shall be the presumptive disciplinary sanction for employees who have engaged in sexual abuse. All terminations for violations of DOC sexual abuse or sexual harassment policies, or resignations by staff that would have been terminated if not for their resignation, shall be reported to any relevant licensing bodies by the DOC PREA Coordinator, and to law enforcement agencies, unless the activity was clearly not criminal.

Operating Procedure 135.1 states disciplinary sanctions for violations of DOC policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member’s disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories.

During the pre-audit period, auditor found that there was one employee who had resigned prior to termination for violating agency sexual abuse or sexual harassment policy. In the past 12 months,
there have not been any staff members who have been disciplined, short of termination, for violation of agency sexual abuse or sexual harassment policies.

Operating Procedure 135.1 states staff who are terminated, or who choose to resign in lieu of termination, for violation of the DOC sexual abuse or sexual harassment policies shall be informed of the DOC’s reporting the employment action to any relevant licensing bodies and to law enforcement agencies, unless the activity was clearly not criminal.

In the past 12 months, there have not been any staff from the facility who have been reported to law enforcement or licensing boards following their terminations (or resignation prior to termination) for violating agency sexual abuse or sexual harassment policy. Standard 115.76 is in compliance based upon review of operating procedures, documentations, and interview of staff.

Operating Procedure 027.1 states any volunteer who engages in sexual abuse shall be prohibited from contact with offenders and shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies.

The facility shall take appropriate remedial measures, and shall consider whether to prohibit further contact with offenders, in the case of any other violation of agency sexual abuse or sexual harassment policies by a volunteer. In the past 12 months, there have not been any contractors or volunteers reported to law enforcement for engaging in sexual abuse of offenders. Staff interviews indicate any contractor or volunteer who violated agency sexual abuse or sexual harassment policies would be banned from the facility and from all contact with offenders, pending an investigation. If the actions were criminal in nature, the agency would seek criminal charges. Standard 115.77 is in compliance based upon review of operating procedures, relevant documentations, and interviews with staff, contractors and volunteers.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In the past 12 months, there have not been any administrative findings of offender-on-offender sexual abuse that have occurred at the facility.

In the past 12 months, there have not been any criminal findings of offender-on-offender sexual abuse that have occurred at the facility.

The pre-audit questionnaire indicates this facility offers therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse. Operating Procedure 820.2 states facilities that offer therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for sexually abusive behavior shall determine if offenders who are found guilty of a disciplinary or criminal offense for sexual abuse are required to participate in such interventions as a condition of access to programming or other benefits.

Operating Procedure 038.3 states offenders shall not be charged for reports of sexual abuse made in good faith, based upon a reasonable belief that the alleged conduct occurred. Staff interviews indicate offenders would be subject to disciplinary sanctions following an administrative or criminal finding that the offender engaged in offender-on-offender sexual abuse. Offenders would receive an institutional charge for misconduct. If the actions were criminal in nature, the offender abuser would be referred for prosecution by SIU.
The offender abuser may face a loss of good time and may also be transferred to a higher-level security prison. Disciplinary sanctions are proportionate to the nature and circumstances of the abuses committed, the offenders’ disciplinary histories, and the sanctions imposed for similar offenses by other offenders with similar histories. An offender’s mental disability or mental illness is considered when determining sanctions.

Medical and mental health staff interviews indicate they provide therapy, counseling, or other intervention in an attempt to address and correct the underlying reasons or motivations for sexual abuse. When these services are provided, staff does not consider an offender's participation as a condition of access to programming or other benefits. Standard 115.78 is in compliance based upon review of relevant operating procedure, documents, and verification of staff and offender during the interview process.

Operating Procedure 730.2 states in institutions, within 14 days, the QMHP will notify offenders identified as HRSA or HRSV of the availability of a follow-up meeting with a mental health practitioner and relevant available treatment and programming. Notification will be documented on the Prison Rape Elimination Act (PREA) QMHP Follow-Up.

During the onsite audit, four offenders disclosed victimization during screening and were offered a follow-up meeting with a medical or mental health practitioner. It is the prison’s policy and practice to follow up with a 100% of offenders who disclose victimization during screening.

Operating Procedure 425.4 states any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 038.1 states a sexual abuse incident review shall be conducted at the conclusion of every sexual abuse investigation including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded. A sexual harassment incident review shall be conducted at the conclusion of every investigation into an allegation of sexual harassment where the allegation has been determined to be substantiated. The Review Team shall consist of at least one Administrative Duty Officer who will solicit input from line supervisors, investigators, and medical or mental health practitioners for all sexual abuse and harassment incident reviews. The review should begin as soon as practical after the incident and a Report of Incident Review 038_F3 submitted within 7
working days of the initial Incident Report. During the pre-audit, the auditor was advised that there were (0) allegations of abuse during the past 12 months.

In the past 12 months, there were (0) of criminal and/or administrative investigations of alleged sexual abuse completed at the facility that were followed by a sexual abuse incident review within 30 days, excluding only “unfounded” incidents.

Operating Procedure 038.1 states the Review Team will determine what can be done to limit the occurrence or reduce the severity of future incidents; consider whether there was a proper application of current procedure, practice, staffing and/or training; or whether there is a need to revise the current procedure, practice, staffing, and/or training.

The Review Team will also develop an Action Plan to limit or mitigate similar future incidents. The unit shall implement the recommendations for improvement, or shall document the reasons for not doing so. The reports are submitted to the Regional Office for review by the Regional Administrator and/or Regional Operations Chief. A copy of all Report of Incident Reviews for sexual abuse and sexual harassment shall be submitted to the Regional PREA Analyst as provided in Operating Procedure 038.3, Prison Rape Elimination Act (PREA).

Staff interviews indicate the facility has a sexual abuse incident review team. The team consists of the Warden, Assistant Warden, Major, Medical and Mental Health and any other staff deemed appropriate. The sexual abuse incident review team looks for any deficiencies. If any are discovered, action would be taken including changing procedures, if appropriate. The review team considers whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; gang affiliation; and/or other group dynamics.

The review team examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse, assess the adequacy of staffing levels in that area during different shifts, and assess whether monitoring technology should be deployed or augmented to supplement supervision by staff. The auditor reviewed the minutes of several review team meetings. All required members of the administrative team were present. Standard 115.86 is in compliance based upon the evidence mentioned above.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Operating Procedure 038.3 states the DOC shall review data collected and aggregated pursuant to this operation procedure in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including by:

- Identifying problem areas; corrective action on an ongoing basis; and
- Preparing an annual report of its findings and corrective actions for each facility, as well as the agency as a whole.

Such report shall include a comparison of the current year’s data and corrective actions with those from prior years and shall provide an assessment of the DOC’s progress in addressing sexual abuse. The DOC report shall be approved by the Director and made readily available to the public through its website. The DOC may redact specific material from the reports when publication would present a clear and specific threat to the safety and security of a facility, but must indicate the nature of the material redacted.

Staff interviews indicate after an assault has occurred, there is a Critical Incident Debriefing and an After-Action Report. The Regional Operations Chief, the Warden, ranking correctional officers, and the Chief of Correctional Operations meet and discuss the incident and what could have been done to prevent the incident from happening again.

The report is sent to the Director and the Chief of Correctional Operations and the two other Regional Operations Chiefs as a “lessons learned” document. In addition, the DOC aggregates data regarding all assaults and looks for trends across the DOC and down to specific institutions. This information is shared with the Director, Chief of Correctional Operations, and the Regional Administrators. In addition, the PREA staff review all incidents involving sexual assaults or sexual harassment.

The auditor was provided with the data collected from 2018 and 2019. The data collection instrument was the Bureau of Justice Statistics Survey on Sexual Violence (SSV) Form. The instrument included definitions of prohibited misconduct.
