Welcome to NAAVI

You Deserve to Feel Safe and it is Your Right to be Informed.

Welcome to Notification And Assistance for Victim Inclusion (NAAVI). NAAVI is the system that the Virginia Department of Corrections (VADOC) uses to assist victims and survivors with post sentencing services and information. Victims may use this portal to submit a request for notifications on inmates who perpetrated a crime against them, and then victims can manage their profiles after their requests are approved. NAAVI is accessible 24/7/365. Based on your contact method choices for notifications (phone, text message, letter, email, and/or TTY), you will get messages if the inmate has a major status change such as (but not limited to) transfer, death, name change, parole events (if eligible), and release. You may also search for inmates under the supervision of the VADOC, find helpful information, and obtain resources or connect with Victim Services staff. If at any time you are concerned for your safety, please call local law enforcement or 911.
